Vuzix' New Operating System Provides Compatibility between M100 Smart Glasses and Apple iOS Devices

Company Readies Release of iOS Support for its M100 Smart Glasses

ROCHESTER, N.Y., Oct. 1, 2014 /PRNewswire/ --Vuzix® Corporation (OTCQB: VUZI), a leading supplier of Video Eyewear and Smart Glasses products in the consumer, commercial and entertainment markets, today announced that with the release of the OS 2.0 upgrade for the M100 Smart Glasses, compatibility with iOS devices is enabled and iPhone and iPad support is being prepared to ship. The M100 Smart Glasses Manager application for iOS is now in final test for submission to Apple for iTunes launch approval.

BT phone handset support, voice and gesture enabled, and more
all in a handsfree computing form factor

With iOS support, the M100 will connect seamlessly to most iOS devices including the new iPhone 6 and iPhone 6 Plus. The Smart Glasses Manager application allows the M100 to be controlled by iPhones and enables features like Bluetooth hands-free headset coms, streaming audio, and many other advanced M100 Smart Glasses capabilities including support for both M100 native applications and M100 legacy Android applications alike.

"We delivered the M100 Smart Glasses OS 2.0 upgrade just in time for the new iPhone 6 and iPhone 6 Plus launch. As many of our Enterprise customers use the iOS devices by corporate mandate, it is critical that our products support the iOS platform. The Vuzix M100 Smart Glasses Manager running on iOS allows seamless integration of our Smart Glasses for both iOS centric enterprise customers and avid prosumer customers alike." said Paul

Travers, President and CEO of Vuzix.

The Company's M100 Smart Glasses are effectively a wearable computer that provides solutions for hands-free computing in mobile applications. The M100 can also support advanced features like virtual and augmented reality needed in many enterprise applications like warehouse picking and plant floor machine maintenance. Managing these unique capabilities have been available only through connectivity with Android devices but with this new release, the M100 now has support for iOS devices including the new iPhone 6 and iPhone 6 Plus. Vuzix' award-winning M100 Smart Glasses contain a virtual display with an integrated camera and dual core ARM processing engine that is powerful enough to connect to the internet and run advanced applications on its own. With the M100 Smart Glasses Manager running on an iPhone, the M100 will now work in harmony with the iPhone as it was meant to be experienced.

About Vuzix Corporation
