Forward-Looking Statements

This document contains forward-looking statements that are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. These risks include, without limitation: adverse economic or real estate developments in the retail industry or the markets in which Wheeler Real Estate Investment Trust, Inc. operates; defaults on or non-renewal of leases by tenants; increased interest rates and operating costs; decreased rental rates or increased vacancy rates; Wheeler Real Estate Investment Trust, Inc.'s failure to obtain necessary outside financing on favorable terms or at all; changes in the availability of additional acquisition opportunities; Wheeler Real Estate Investment Trust, Inc.'s inability to successfully complete real estate acquisitions or successfully operate acquired properties and Wheeler Real Estate Investment Trust, Inc.'s failure to qualify or maintain its status as a REIT. For a further list and description of such risks and uncertainties that could impact Wheeler Real Estate Investment Trust, Inc.'s future results, performance or transactions, see the reports filed by Wheeler Real Estate Investment Trust, Inc. with the Securities and Exchange Commission, including its quarterly reports on Form 10-Q and annual reports on Form 10-K. Wheeler Real Estate Investment Trust, Inc. disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Company Overview

Headquartered in Virginia Beach, VA, Wheeler Real Estate Investment Trust, Inc. is a fully-integrated, self-managed commercial real estate investment company focused on owning and operating income-producing retail properties with a primary focus on grocery-anchored centers. Wheeler's portfolio contains well-located, potentially dominant retail properties in secondary and tertiary markets that generate attractive, risk-adjusted returns. Wheeler's common stock, Series B convertible preferred stock, Series D cumulative convertible preferred stock and common stock warrants trade publicly on the Nasdaq under the symbols "WHLR", "WHLRP", "WHLRD" and "WHLRW", respectively.

(1) Reflects leases executed through April 4, 2018 that commence subsequent to the end of the current period.

(2) Annualized based rent per occupied square foot, assumes base rent as of the end of the current reporting period, excludes the impact of tenant concessions and rent abatements.

(3) We own the Amscot building, but we do not own the land underneath the buildings and instead lease the land pursuant to ground leases with parties that are affiliates of our former CEO, Jon Wheeler. As discussed in the financial statements, these ground leases require us to make annual rental payments and contain escalation clauses and renewal options.

(4) This information is not available because the property is undeveloped.

(5) This property is our corporate headquarters that we 100% occupy.

(6) The property is a redevelopment property that is reaching completion and spaces are being delivered.

(7) Square footage is net of management office the Company occupies on premise and buildings on ground lease which the Company only leases the land.

Definitions

Funds from Operations (FFO): an alternative measure of a REIT's operating performance, specifically as it relates to results of operations and liquidity. FFO is a measurement that is not in accordance with accounting principles generally accepted in the United States (GAAP). Wheeler computes FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures.

Most industry analysts and equity REITs, including Wheeler, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate the business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions.

Adjusted FFO (AFFO): Management believes that the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the operating performance of the Company's real estate assets. These items include, but are not limited to, non-recurring expenses, legal settlements, acquisition costs and capital raise costs. Management uses AFFO, which is a non-GAAP financial measure, to exclude such items. Management believes that reporting AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis. The Company also presents Pro Forma AFFO which shows the impact of certain activities assuming they occurred at the beginning of the year.

Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA): another widely-recognized non-GAAP financial measure that the Company believes, when considered with financial statements prepared in accordance with GAAP, is useful to investors and lenders in understanding financial performance and providing a relevant basis for comparison among other companies, including REITs. While EBITDA should not be considered as a substitute for net income attributable to the Company's common shareholders, net operating income, cash flow from operating activities, or other income or cash flow data prepared in accordance with GAAP, the Company believes that EBITDA may provide additional information with respect to the Company's performance or ability to meet its future debt service requirements, capital expenditures and working capital requirements. The Company computes EBITDA by excluding interest expense, net loss attributable to noncontrolling interests, and depreciation and amortization, from income from continuing operations. The Company also presents Adjusted EBITDA which excludes affecting the comparability of the periods presented, including but not limited to, costs associated with acquisitions and capital related activities.

Net Operating Income (NOI): The Company believes that NOI is a useful measure of the Company's property operating performance. The Company defines NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because NOI excludes general and administrative expenses, depreciation and amortization, interest expense, interest income, provision for income taxes, gain or loss on sale or capital expenditures and leasing costs, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. The Company uses NOI to evaluate its operating performance since NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. NOI should not be viewed as a measure of the Company's overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes, gain or loss on sale or disposition of assets, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties. Other REITs may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to that of other REITs.
