Credit Support Agreements

What are the Credit Support Agreements (CSAs)?

The CSAs are a form of manager support between Barings LLC and BBDC created in connection with the acquisitions of MVC and Sierra. The CSAs insulate shareholders from possible credit losses in the acquired portfolios up to the stated amount of each respective CSA

What is the length of each CSA contract (CSA period)?

The earlier of when the entire respective MVC/Sierra portfolio has been exited or 10-years from the close of the respective merger

What happens if there are net realized and unrealized losses at the end of the CSA period?

Barings LLC will absorb the losses up to the maximum amount of the respective CSA

How will Barings LLC compensate Barings BDC investors for the losses?

First, Barings LLC will waive Incentive and Base Management Fees it is owed by BBDC after the designated settlement date (calendar year following the losses)

If CSA protected losses exceed the fees waived, Barings LLC will make a cash payment to BBDC up to the amount of each CSA

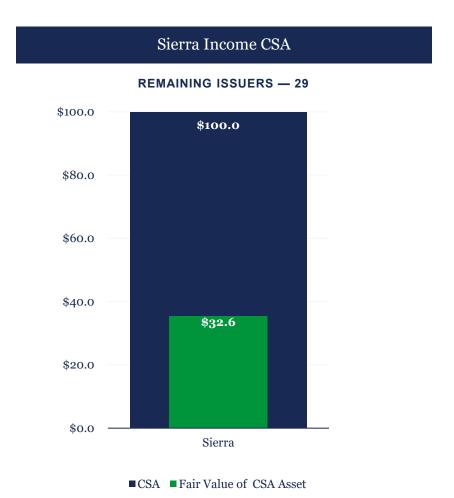

What is the impact to NAV related to the CSAs?

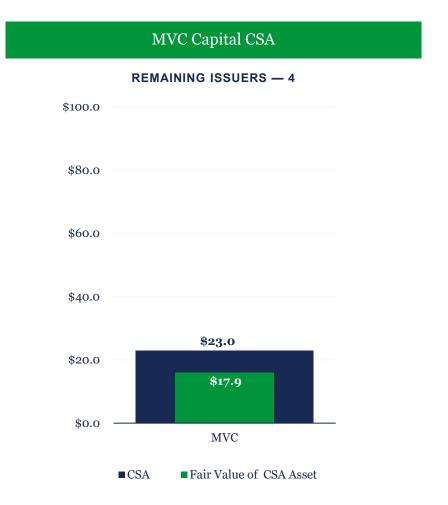

The CSAs are an asset to shareholders and the quarterly change is an offset to unrealized portfolio appreciation and depreciation

Credit Support Agreements

Based on current portfolio valuations, the Sierra CSA and the MVC CSA insulate BBDC shareholders from a meaningful portion of credit losses in the acquired portfolio
