Second Quarter 2020 Results

Commenting of the quarter, Eric Lloyd, Chief Executive Officer, stated, "In the midst of continued uncertainty due to the COVID-19 pandemic, Barings BDC strengthened its balance sheet and overall financial condition in the second quarter. Our core middle-market portfolio performed well, our net asset value increased as a result of improved asset values, and our leverage decreased as we continued to rotate out of liquid assets and repay debt. These positive trends, when combined with our new \$100 million unsecured debt commitment, position us to take advantage of what we anticipate will be a more active direct lending market in the second half of 2020."

During the three months ended June 30, 2020, the Company reported total investment income of \$16.1 million, net investment income of \$6.5 million, or \$0.14 per share, and a net increase in net assets resulting from operations of \$54.7 million, or \$1.14 per share.

NAV per share as of June 30, 2020 was \$10.23, as compared to \$9.23 as of March 31, 2020. The increase in NAV per share from March 31, 2020 to June 30, 2020 was primarily attributable to net unrealized appreciation on the Company's investment portfolio and foreign currency transactions of approximately \$1.36 per share and the impact of accretive share repurchase of \$0.02 per share, partially offset by a net realized loss on investments of \$0.34 per share and the Company's second quarter dividend exceeding net investment income by \$0.02 per share.

Recent Portfolio Activity

During the three months ended June 30, 2020, the Company purchased \$10.5 million in syndicated senior secured loans, made new investments in two middle-market portfolio companies totaling \$11.9 million, consisting of two senior secured private debt investments and one minority equity investment, made one new joint venture equity investment totaling \$1.5 million, made additional debt investments in seven existing portfolio companies totaling \$5.6 million and made an additional investment in its Jocassee Partners, LLC joint venture totaling \$5.0 million. In addition, the Company sold \$65.9 million of syndicated senior secured loans, recognizing a net realized loss on these transactions of \$16.1 million. In addition, one broadly syndicated loan investment was restructured. Under U.S. GAAP, this restructuring was considered a material modification and as a result, we recognized a loss of approximately \$0.6 million related to this restructuring. Lastly, the Company received \$0.1 million in escrow distributions from legacy portfolio companies, which were recognized as realized gains.

In addition, during the three months ended June 30, 2020, the Company reported total net unrealized appreciation of \$65.0 million, consisting of net unrealized appreciation on our current portfolio of \$43.8 million, net unrealized depreciation related to foreign currency transactions of \$1.4 million and net unrealized appreciation reclassification adjustments of \$22.7 million related to the net realized losses on the sales / repayments of certain syndicated secured loans. The net unrealized appreciation on the Company's current

portfolio of \$43.8 million was driven by broad market moves for liquid syndicated secured loans and structured products totaling \$31.6 million, broad market moves for middle-market debt investments of \$5.1 million, the credit or fundamental performance of middle-market debt investments totaling \$2.9 million, the impact of foreign currency exchange rates on middle-market debt investments of \$1.3 million, and net unrealized appreciation on the Company's total equity and joint venture investments of \$3.0 million.

Dividend Reinvestment Plan

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.

Subsequent Events

Subsequent to June 30, 2020, the Company made approximately \$60.6 million of new private debt commitments, of which \$15.7 million closed and funded. The \$15.7 million of investments consist of two first lien senior secured debt investments with a weighted average yield of 14.0%. In addition, the Company funded \$5.7 million of previously committed delayed draw term loans. As of August 4, 2020, Barings North American Private Finance group had a probability weighted pipeline of approximately \$937 million, in which Barings BDC may have the ability to participate. Not all deals may be suitable for Barings BDC and the Company's allocations will be determined in accordance with Barings Global Private Finance allocation policy.

On August 3, 2020, the Company entered into a Note Purchase Agreement (the "Note Purchase Agreement") governing the issuance of (i) \$50,000,000 in aggregate principal amount of Series A senior unsecured notes (the "Series A Notes") due August 2025 with a fixed interest rate of 4.66% per year, and (ii) up to \$50,000,000 in aggregate principal amount of additional senior unsecured notes (the "Additional Notes" and, collectively with the Series A Notes, the "August 2025 Notes") due August 2025 with a fixed interest rate per year to be determined, in each case, to qualified institutional investors in a private placement. An aggregate principal amount of \$25,000,000 of the Series A Notes is expected to be issued in September 2020 (subject to the satisfaction of customary closing conditions contained in the Note Purchase Agreement) and will mature on August 4, 2025, and an aggregate principal amount of \$25,000,000 of the Series A Notes is expected to be issued in December 2020 (subject to the satisfaction of customary closing conditions contained in the Note Purchase Agreement) and mature on August 4, 2025, in each case unless redeemed, purchased or prepaid prior to such date by the Company or its affiliates in accordance with their terms.
