#### **Second Quarter 2021 Results**

Commenting on the quarter, Eric Lloyd, Chief Executive Officer, stated "The second quarter remained very active across our sponsor finance and cross platform investment strategies, and this activity continued to generate stable and consistent results. Underlying portfolio trends remain strong, NAV per share continues to increase, and our wide frame of investment reference across various private asset classes remains a unique competitive advantage as markets continue to become more competitive."

During the three months ended June 30, 2021, the Company reported total investment income of \$33.2 million, net investment income of \$14.6 million, or \$0.22 per share, and a net increase in net assets resulting from operations of \$29.3 million, or \$0.45 per share.

Net asset value ("NAV") per share as of June 30, 2021 was \$11.39, as compared to \$11.14 as of March 31, 2021. The increase in NAV per share from March 31, 2021 to June 30, 2021 was primarily attributed to net unrealized appreciation on the Company's investment portfolio, credit support agreement and foreign currency transactions of approximately \$0.22 per share, net investment income exceeding the second quarter dividend by \$0.02 per share and a net realized gain on investments of \$0.01.

Jonathan Bock, Chief Financial Officer, stated "At \$0.22 per share of net investment income, Barings BDC continues to meet its long-term earnings target of 8.0% on NAV per share. This strong earnings profile, when combined with our best in class fee structure, provides for further earnings stability as Barings' pre-incentive fee net operating income exceeds our 8.0% hurdle rate. As a result, I am happy to announce that our Board of Directors declared a dividend increase of 5.0% to \$0.21 per share in the third quarter."

## **Recent Portfolio Activity**

The Company had seven loans repaid at par totaling \$66.4 million and received \$19.5 million of portfolio company principal payments. In addition, the Company sold \$155.7 million of middle-market portfolio company debt investments to one of the Company's joint ventures, realizing a gain on these transactions of \$0.9 million. The net unrealized appreciation on our current portfolio of \$12.1 million was driven primarily by broad market moves for investments of \$7.8 million and the credit or fundamental performance of investments of \$5.1 million, partially offset by the impact of foreign currency exchange rates on investments of \$0.8 million.

#### **Dividend Reinvestment Plan**

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income, capital gains and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.

# **Subsequent Events**

Subsequent to June 30, 2021, the Company made approximately \$185.6 million of new commitments, of which \$150.3 million closed and funded. The \$150.3 million of investments consist of \$53.9 million of first lien senior secured debt investments, \$6.6 million of second lien senior secured and subordinated debt investments and an \$89.8 million equity co-investment alongside certain affiliates in a portfolio company focused on directly originated, senior-secured asset-based loans to middle-market companies. The weighted average yield of the debt investments was 7.5%. In addition, the Company funded \$18.4 million of previously committed delayed draw term loans.
