Third Quarter 2022 Results

Commenting on the quarter, Jon Bock, Chief Executive Officer, stated, "While uncertain and volatile economic conditions are pressuring global asset prices, we continue to see strong performance across our diversified investment portfolio. Portfolio yields continue to increase as a result of increasing base rates, and our stockholder friendly incentive fee 'look back' further demonstrates investor alignment in the event of unrealized write-downs resulting from increasing yields. Looking into the fourth quarter, we see continued strong portfolio performance and expect to benefit from deploying incremental capital at attractive risk-adjusted returns. With that as our frame of reference, we expect fourth quarter net investment income of at least \$0.27 per share, with further expansion into 2023."

During the three months ended September 30, 2022, the Company reported total investment income of \$56.3 million, net investment income of \$27.9 million, or \$0.26 per share, and a net increase in net assets resulting from operations of \$9.9 million, or \$0.09 per share.

Net asset value ("NAV") per share as of September 30, 2022 was \$11.28, as compared to \$11.41 as of June 30, 2022. The decrease in NAV per share from June 30, 2022 to September 30, 2022 was primarily attributed to net unrealized depreciation on the Company's investment portfolio, credit support agreements and foreign currency transactions of approximately \$0.24 per share, partially offset by a net realized gain on investments and foreign currency transactions of \$0.07 per share, share repurchases of \$0.02 per share and net investment income exceeding the Company's third quarter dividend by \$0.02 per share.

Jonathan Landsberg, Chief Financial Officer, stated, "We continue to benefit from rising base rates as the weighted-average yield on our debt investments expanded meaningfully in the quarter. Moreover, our current net leverage ratio of 0.99x affords us the flexibility to take advantage of increasingly attractive risk-adjusted returns. As a result, our Board of Directors declared a fourth quarter dividend of \$0.24 per share, or an 8.5% yield on our September 30, 2022 net asset value of \$11.28 per share. This dividend level aligns with our hurdle rate, the highest in the BDC sector at 8.25%, which provides meaningful earnings power protection in the event of increased credit stress. We anticipate earnings will continue exceeding our base dividend in the current environment, and we will look to drive additional stockholder value through a combination of retention of excess earnings, continued share repurchases, and future special dividend distributions."

Recent Portfolio Activity

During the three months ended September 30, 2022, the Company made 21 new investments totaling \$183.4 million and made investments in existing portfolio companies totaling \$50.7 million. The Company had 8 loans repaid totaling \$60.0 million, received \$24.2 million of portfolio company principal payments and received \$21.1 million of return of capital from our joint ventures. In addition, the Company sold \$84.2 million of loans, recognizing a net realized loss on these transactions of \$3.6 million and sold \$45.1 million of middle-market portfolio company debt investments to one of its joint ventures and realized a loss on these transactions of \$5.4 million. Lastly, the Company received a distribution from one of its portfolio companies totaling \$6.2 million, which was recognized as a realized gain.

During the three months ended September 30, 2022, the Company recorded net unrealized depreciation totaling \$26.1 million, consisting of net unrealized depreciation on its current portfolio of \$47.9 million, unrealized depreciation of \$0.1 million on the MVC credit support

The net unrealized depreciation on the Company's current portfolio of \$47.9 million was driven primarily by credit or fundamental performance of investments of \$1.8 million, the impact of foreign currency exchange rates on investments of \$26.9 million and broad market moves for investments of \$19.2 million.

Liquidity and Capitalization

As of September 30, 2022, the Company had cash and foreign currencies of \$137.3 million, \$651.0 million of borrowings outstanding under its \$1.1 billion senior secured revolving credit agreement and \$725.0 million aggregate principal amount of unsecured notes outstanding. In addition, the Company had a net receivable from unsettled transactions of \$28.1 million.

Share Purchase Program

Any repurchases pursuant to the authorized program will occur during the 12-month period commencing on April 1, 2022 and are expected to be made in accordance with a Rule 10b5-1 purchase plan that qualifies for the safe harbors provided by Rules 10b5-1 and 10b-18 under the Exchange Act, as well as subject to compliance with the Company's covenant and regulatory requirements. As of November 10, 2022, the Company repurchased a total of 2,263,496 shares of its common stock in the open market under the authorized program at an average price of \$9.69 per share, including broker commissions.

Dividend Reinvestment Plan

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income, capital gains and

return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.

Subsequent Events

Subsequent to September 30, 2022, the Company made approximately \$131.1 million of new commitments, of which \$103.0 million closed and funded. The \$103.0 million of investments consists of \$97.5 million of first lien senior secured debt investments and \$5.5 million of equity investments. The weighted average yield of the debt investments was 9.9%. In addition, the Company funded \$7.5 million of previously committed delayed draw term loans.

Subsequent to September 30, 2022, the Company placed its debt investment in Core Scientific Inc. ("Core Scientific") on non-accrual status effective with the monthly payment due October 31, 2022. As a result, under U.S. GAAP, the Company will no longer recognize interest income on its debt investment in Core Scientific for financial reporting purposes.
