## Second Quarter 2025 Results

Commenting on the quarter, Eric Lloyd, Chief Executive Officer of Barings BDC, stated, "Our portfolio generated strong performance in the second quarter, delivering sequential net investment income growth. Our net investment income was \$0.28 per share, fully covering our regular dividend. Further, our net investment income per share performance for the first half of 2025 fully covers our regular distributions year-to-date. Our disciplined investment approach continues to drive superior credit performance, with non-accruals at just 0.5% of our portfolio on a fair value basis. Also, we deployed almost \$200 million into new and

existing investments during the second quarter of 2025, in line with our strategy to deploy capital into high-quality, income producing opportunities that align with our selective investment strategy. With over \$322 million of dry powder and the strength of the Barings platform, we believe that we remain well positioned to generate attractive risk-adjusted returns for our shareholders.”

During the three months ended June 30, 2025, the Company reported total investment income of \$74.4 million, net investment income of \$29.8 million, or \$0.28 per share, and a net increase in net assets resulting from operations of \$20.6 million, or \$0.20 per share.

Net asset value (“NAV”) per share as of June 30, 2025 was \$11.18, as compared to \$11.29 as of March 31, 2025. The decrease in NAV per share from March 31, 2025 to June 30, 2025 was primarily attributed to a net realized loss on investments, credit support agreements, foreign currency transactions and forward currency contracts of \$0.14 per share, and the Company’s payment of a second quarter special dividend of \$0.05 per share, partially offset by net unrealized appreciation on the Company’s investment portfolio, credit support agreements, foreign currency transactions and forward currency contracts of approximately \$0.06 per share, and the Company’s second quarter net investment income exceeding the second quarter regular dividend paid by \$0.02 per share.

### **Recent Portfolio Activity**

During the three months ended June 30, 2025, the Company made 19 new investments totaling \$137.3 million and made investments in existing portfolio companies totaling \$61.7 million. The Company had 14 loans repaid totaling \$59.1 million and recognized a net realized loss on these transactions of \$17.6 million. The Company also received \$35.5 million of portfolio company principal payments and sales proceeds and recognized a net realized gain on these transactions of \$0.3 million. The Company received \$4.0 million of return of capital from joint ventures, equity, and royalty rights investments. The Company also received proceeds of \$4.7 million related to the exit of one of its royalty rights investments and recognized a realized gain on such exit of \$2.5 million. In addition, the Company sold \$55.9 million of middle-market portfolio debt investments to its joint ventures, recognizing a net realized gain on these transactions of \$0.7 million. Also, investments in two portfolio companies were restructured, which resulted in a net realized loss of \$2.3 million. Lastly, the Company received proceeds related to the sales and exits of equity investments totaling \$8.1 million and recognized a net realized gain on such sales totaling \$5.4 million.

During the three months ended June 30, 2025, the Company recorded net unrealized appreciation totaling \$5.9 million, consisting of net unrealized appreciation on the Company’s current portfolio of \$14.7 million, net unrealized appreciation reclassification adjustments of \$12.8 million related to the net realized losses on the sales / exits of certain investments, unrealized appreciation of \$6.4 million on the Sierra credit support agreement with Barings LLC (“Barings”), partially offset by net unrealized depreciation related to foreign currency transactions of \$15.2 million, unrealized depreciation of \$9.4 million related to the net realized gain on the termination of the MVC credit support agreement with Barings and net unrealized depreciation related to forward currency contracts of \$3.3 million. The net unrealized appreciation on the Company’s current portfolio of \$14.7 million was driven primarily by the impact of foreign currency exchange rates on investments of \$34.2 million, partially offset by the credit or fundamental performance of investments of \$13.0 million and

broad market moves for investments of \$6.5 million.

### **Liquidity and Capitalization**

As of June 30, 2025, the Company had cash and foreign currencies of \$49.3 million (including restricted cash of \$4.7 million), \$547.3 million of borrowings outstanding under its \$825.0 million senior secured credit agreement, \$1,025.0 million aggregate principal amount of unsecured notes outstanding and a net receivable from unsettled transactions of \$11.3 million.

### **Share Repurchase Program**

On February 20, 2025, the Board authorized a new 12-month share repurchase program. Under the program, the Company may repurchase, during the 12-month period commencing on March 1, 2025, up to \$30.0 million in the aggregate of its outstanding common stock in the open market at prices below the then-current NAV per share. The timing, manner, price and amount of any share repurchases will be determined by the Company, in its discretion, based upon the evaluation of economic and market conditions, the Company's stock price, applicable legal, contractual and regulatory requirements and other factors. The program is expected to be in effect until March 1, 2026, unless extended or until the aggregate repurchase amount that has been approved by the Board has been expended. The program does not require the Company to repurchase any specific number of shares, and the Company cannot assure stockholders that any shares will be repurchased under the program. The program may be suspended, extended, modified or discontinued at any time. During the three months ended June 30, 2025, the Company repurchased a total of 100,000 shares of its common stock in the open market under the authorized program at an average price of \$8.88 per share, including brokerage commissions. ### **Dividend Reinvestment Plan**

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income, capital gains and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.

### **Subsequent Events**

Subsequent to June 30, 2025, the Company made approximately \$59.3 million of new commitments, of which \$38.6 million closed and funded. The \$38.6 million of investments consists of \$28.9 million of first lien senior secured debt investments, \$9.4 million of subordinated debt investments and \$0.3 million of equity investments. The weighted average yield of the debt investments was 9.4%. In addition, the Company funded \$22.6 million of previously committed revolvers and delayed draw term loans.

On August 4, 2025, the Company's 4.66% Series A senior unsecured notes due August 2025 matured in accordance with the terms of the Note Purchase Agreement with Massachusetts Mutual Life Insurance Company and the Company repaid in full the par amount plus accrued and unpaid interest.

In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. These measures should only be used to evaluate the Company's results of operations in conjunction with their corresponding GAAP measures.
