MANAGEMENT COMMENTS

"Homebuying demand in the second quarter of 2021 remained strong and steady as macroeconomic conditions improved," said Steven J. Hilton, executive chairman of Meritage Homes. "Our second quarter 2021 average absorption pace was 5.5 per month, up from 5.0 in the second quarter of 2020 even as we metered our orders pace. Although our orders pace was strong, a 10% decline in average community count resulted in a modest 2% decline in quarterly sales orders to 3,542 homes this quarter, compared to the exceptionally strong sales orders in the second quarter of 2020. Demonstrating our high level of execution and ability to navigate ongoing supply chain challenges, we closed 3,273 homes, the best second quarter of closings in company history which was also 18% greater than prior year, as well as generated the Company's all-time high quarterly gross margin of 27.3%."

Mr. Hilton continued, "As we get closer to attaining our mid-2022 goal of 300 communities, we exceeded our own expectations and had 226 active communities at June 30, 2021, reflecting an 11% sequential quarterly increase from 203 and, we believe, the start of meaningful growth. We opened 45 new communities this quarter and our strong pipeline of community openings over the next four quarters should position us well both to address market demand with a greater volume of affordable entry-level and first move-up homes and to drive continued profitability."

"Our strategy continues to successfully leverage demographic trends in homebuying for millennials and baby boomers, as well as market conditions of constrained housing supply and sustained lower interest rates," said Phillippe Lord, chief executive officer of Meritage Homes. "During the quarter, we invested significantly in growth by spending a record \$551 million on land acquisition and development. Approximately 9,000 net new lots were secured, a 114% increase over prior year, bringing our total lot supply to over 63,000. Inclusive of this additional spend, our net debt to capital ratio was 15.4% this quarter, as we remain committed to sustained growth, a strong balance sheet, and maintaining liquidity."

"For the second quarter of 2021, home closing revenue of \$1.3 billion was 23% greater than last year," Mr. Lord remarked. "Leveraging strong operational efficiencies and favorable pricing power, our home closing gross margin expanded 590 bps year-over-year from 21.4% to 27.3% this quarter and our diluted EPS increased 83% year-over-year from \$2.38 to \$4.36 after the impact of \$18.2 million of early debt extinguishment."

Mr. Lord added, "Based on our current forecast and confidence in delivering our backlog, we are projecting 2021

home closings of approximately 12,500-13,000 and 2021 home closing revenue in the range of \$5.00-5.25 billion. In addition, we anticipate full year home closing gross margin of around 27.5% and an effective tax rate of 22.5-23.0%, which we expect will translate into approximately \$18.55-19.45 of diluted EPS for 2021."

"Housing demand remains strong and we are still able to sell our homes soon after they are released. Looking ahead, we will continue to adjust and maximize prices based on market conditions and to align our orders pace with our production schedule, which is affected by supply chain constraints. With notable lumber price declines over the last couple months, we expect our net construction costs will stay flat or decline over the next couple of quarters. We believe that this improvement coupled with our ongoing community count growth will contribute to strong financial results in the short- and medium-term," concluded Mr. Lord.

SECOND QUARTER RESULTS

- The total orders of 3,542 for the second quarter of 2021 reflected a decrease of 2% year-over-year, driven by a 9% increase in average absorption pace from 5.0 to 5.5 per month, which was offset by a 10% decrease in average communities. Entry-level represented 81% of second quarter 2021 orders, compared to 70% in the same quarter in 2020. Strong housing demand enabled Meritage to achieve higher average absorptions in the East and Central regions, which were up 25% and 8%, respectively. Average absorption pace in the West region was relatively flat year-over-year. The tight housing supply conditions combined with strong homebuying demand created considerable pricing power in the market, which generated year-over-year increases in average sales price ("ASP") for both orders and backlog. Even as our product mix continued to shift toward entry-level homes, ASP on orders in the second quarter of 2021 exceeded \$420,000.
- The 23% year-over-year increase in home closing revenue to \$1.3 billion for the second quarter of 2021 was due to 18% higher home closing volume and a 4% increase in closing ASP, which is primarily attributable to the sustained strength in housing demand and the significant price increases the market has allowed us to push through in recent quarters, despite the product mix shift toward entry-level homes.
- The 590 bps improvement in second quarter 2021 home closing gross margin to 27.3% from 21.4% a year ago mainly resulted from efficiencies gained from higher ASP and leveraging of our fixed costs on greater home closing volume, which more than offset higher lumber prices and increases in other commodity costs.
- Selling, general and administrative expenses ("SG&A") were 9.2% of second quarter 2021 home closing revenue, a 110 bps improvement over 10.3% in the prior year. This improvement was due to greater leverage of fixed expenses on higher home closing revenue, in addition to cost savings from technology enhancements, particularly related to our sales and marketing efforts.
- Loss on early extinguishment of debt of \$18.2 million was recognized in the second quarter of 2021 in connection with the early redemption in April 2021 of the 7.00% senior notes due 2022 ("2022 Notes").
- The second quarter effective income tax rate was 22.4% in 2021 compared to 21.7% in 2020. The reduced rate in both years primarily stems from eligible energy tax credits on qualifying energy-efficient homes closed under the Taxpayer Certainty and Disaster Tax Relief Act enacted in December 2019.
- Second quarter 2021 pre-tax margin increased 560 bps to 16.8%, compared to 11.2% in the second quarter of 2020. Net earnings were \$167.4 million (\$4.36 per diluted share) for the second quarter of 2021, an 85% increase over \$90.7 million (\$2.38 per diluted share) for the second quarter of 2020. Strong earnings growth reflected higher closing volume, pricing power, expanded gross margin and improved overhead leverage, which led to an 83% year-over-year improvement in earnings per diluted share.

YEAR TO DATE RESULTS

- Total orders for the first half of 2021 increased 4% year-over-year, driven by a 21% increase in absorption pace, partially offset by a 14% decrease in average community count compared to the first half of 2020.
- Home closing revenue increased 22% in the first half of 2021 to \$2.3 billion due to 21% higher home closing volume and a 1% increase in closing ASP given the favorable pricing environment.
- The 530 bps improvement for home closing gross margin in the first half of 2021 to 26.1% from 20.8% primarily resulted from higher ASP and better leveraging of fixed costs on greater home closing volume.
- SG&A expenses improved 100 bps year-over-year to 9.5% of home closing revenue, compared to 10.5% in

the first half of 2020, due to operating efficiencies and improved leverage of fixed expenses on higher home closing volume and revenue.

- Loss on early extinguishment of debt of \$18.2 million was recognized in the first half of 2021 in connection with the early redemption of the 2022 Notes.
- The effective tax rate for the first half of 2021 was 21.6%, compared to 20.2% for the first half of 2020. The effective tax rate in both periods benefited from tax credits earned for qualifying energy-efficient homes under the Taxpayer Certainty and Disaster Tax Relief Act enacted in December 2019.
- Net earnings were \$299.2 million (\$7.80 per diluted share) for the first half of 2021, an 85% increase over \$161.8 million (\$4.20 per diluted share) for the first half of 2020, primarily reflecting higher closing volume, pricing power, expanded gross margin and greater overhead leverage in 2021.

BALANCE SHEET

- Cash and cash equivalents at June 30, 2021 totaled \$684.4 million, compared to \$745.6 million at
 December 31, 2020, reflecting investments in real estate and development and share repurchases. Real
 estate assets increased from \$2.8 billion at December 31, 2020 to \$3.3 billion at June 30, 2021, reflecting
 an increase in homes under contract under construction and finished homesites and homesites under
 development.
- A total of over 63,000 lots were owned or controlled as of June 30, 2021, compared to approximately 43,000 total lots at June 30, 2020. In the second quarter of 2021, about 9,000 net new lots were added, representing 54 future communities, of which 80% are for entry-level communities.
- Debt-to-capital and net debt-to-capital ratios were 30.6% and 15.4%, respectively, at June 30, 2021, compared to 30.3% and 10.5%, respectively, at December 31, 2020.
- In the first half of 2021, we repurchased 300,000 shares of stock for a total of \$27.5 million, of which 200,000 shares totaling \$19.1 million were repurchased during the second quarter of 2021.
- On April 15, 2021, the Company closed on its offering of \$450 million 3.875% senior notes due 2029 and
 received approximately \$444 million in net proceeds. On March 31, 2021, the company issued a notice of
 redemption for April 30, 2021 for all of its \$300 million aggregate principal amount of the 2022 Notes. The
 redemption of the 2022 Notes resulted in \$18.2 million of early extinguishment of debt charges in the
 second guarter of 2021.

The information included in this press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include expectations about the housing market in general; projected 2021 home closings, home closing revenue, gross margins, effective tax rate, diluted earnings per share and future community counts; trends in construction costs; and expectations about our future results.

Such statements are based on the current beliefs and expectations of Company management and current market conditions, which are subject to significant uncertainties and fluctuations. Actual results may differ from those set

forth in the forward-looking statements. The Company makes no commitment, and disclaims any duty, except as required by law, to update or revise any forward-looking statements to reflect future events or changes in these expectations. Meritage's business is subject to a number of risks and uncertainties. As a result of those risks and uncertainties, the Company's stock and note prices may fluctuate dramatically. These risks and uncertainties include, but are not limited to, the following: changes in interest rates and the availability and pricing of residential mortgages; inflation in the cost of materials used to develop communities and construct homes; supply chain constraints; our ability to obtain performance and surety bonds in connection with our development work; the ability of our potential buyers to sell their existing homes; legislation related to tariffs; the adverse effect of slow absorption rates; impairments of our real estate inventory; cancellation rates; competition; home warranty and construction defect claims; failures in health and safety performance; fluctuations in quarterly operating results; our level of indebtedness; our ability to obtain financing if our credit ratings are downgraded; our potential exposure to and impacts from natural disasters or severe weather conditions; the availability and cost of finished lots and undeveloped land; the success of our strategy to offer and market entry-level and first move-up homes; a change to the feasibility of projects under option or contract that could result in the write-down or write-off of earnest or option deposits; our limited geographic diversification; the replication of our energy-efficient technologies by our competitors; shortages in the availability and cost of subcontract labor; our exposure to information technology failures and security breaches and the impact thereof; the loss of key personnel; changes in tax laws that adversely impact us or our homebuyers; our inability to prevail on contested tax positions; failure to comply with laws and regulations; our compliance with government regulations; negative publicity that affects our reputation; disruptions to our business by COVID-19, fear of a similar event, and measures that federal, state and local governments and/or health authorities implement to address it; and other factors identified in documents filed by the Company with the Securities and Exchange Commission, including those set forth in our Form 10-K for the year ended December 31, 2020 and our Form 10-Q for the quarter ended March 31, 2021 under the caption "Risk Factors," which can be found on our website at www.investors.meritagehomes.com.
