ENGLEWOOD, Colo.--(BUSINESS WIRE)-- Liberty Media Corporation ("Liberty Media") (Nasdaq: LMCA, LMCB) today reported second quarter 2013 results. Highlights include⁽¹⁾:

- SiriusXM reported strong Q2 results
 - Subscriber base grew to 25.1 million
 - Revenue of \$940 million, up 12% from the second quarter of 2012
 - Adjusted EBITDA⁽²⁾ grew 19% to \$283 million
 - Net income of \$126 million
 - Repurchased close to \$1.3 billion in shares year to date
 - Due to SiriusXM's share buybacks, Liberty's stake increased to over 53%
- Charter Communications stock up over 35% since investment completed
 - Liberty stake valued at \$3.5 billion
- Atlanta Braves in 1st place in the NL East by 12 games

"We are very pleased with the job Jim and his management team did this quarter. Consumers love SiriusXM and the operating performance of the business reflects that," said Greg Maffei, President and CEO of Liberty Media. "Charter Communications has proved an attractive investment, generating a greater than 35% return since we completed the investment."

Liberty Media

On January 11, 2013, Liberty Media was separated from Starz. Therefore, as of the first quarter of 2013 Liberty began presenting Starz as discontinued operations. Liberty acquired its controlling interest in SiriusXM on January 18, 2013 and has applied purchase accounting and consolidated the results of SiriusXM since that date. Prior to the acquisition of Liberty's controlling interest, we accounted for the investment in SiriusXM using the equity method.

Liberty Media's revenue increased \$943 million to \$1,078 million in the second quarter. Adjusted OIBDA⁽²⁾ increased \$354 million to \$372 million and operating income increased \$234 million to \$236 million. The increase in revenue, adjusted OIBDA and operating income was primarily due to the acquisition of a controlling interest in SiriusXM as discussed above.

SiriusXM

SiriusXM reported its stand-alone second quarter results on July 26, 2013. For presentation purposes in this release, we include below the results of SiriusXM, as reported by SiriusXM, without regard to the purchase accounting adjustments applied by us for purposes of our financial statements. Liberty Media believes the presentation of financial results as reported by SiriusXM is useful to investors as the comparability of those results are best understood in the context of SiriusXM's historical financial presentation. For a reconciliation of revenue, adjusted OIBDA (as defined by Liberty Media) and operating income for SiriusXM's stand-alone operating results as reported by SiriusXM, to those results as reported by Liberty Media, see Liberty Media's Form 10-Q for the quarter ended June 30, 2013.

Highlights of SiriusXM's earnings release included the following:

- Record revenue of \$940 million, up 12% from second quarter of 2012
- Net income of \$126 million
- Adjusted EBITDA⁽²⁾ grew 19% to a record \$283 million
- Raised full year EBITDA guidance to \$1.14 billion
- Repurchased close to \$1.3 billion in shares year to date

All such amounts are representative of SiriusXM's stand-alone operating results and are not indicative of what is included in Liberty Media's financial statements due to certain purchase accounting adjustments resulting from our January 18, 2013 acquisition of SiriusXM. SiriusXM is a separate publicly traded company and additional information about SiriusXM can be obtained through its website and filings with the Securities and Exchange Commission.

Share Repurchases

There were no repurchases of Liberty Media Series A common stock (Nasdaq: LMCA) stock from May 1, 2013 through July 31, 2013. Liberty Media has approximately \$327 million remaining under its current stock repurchase authorization.

Liberty Media Corporation owns interests in a broad range of media, communications and entertainment businesses, including its subsidiaries SiriusXM, Atlanta National League Baseball Club, Inc. and TruePosition, Inc., its interests in Charter Communications, Live Nation Entertainment and Barnes & Noble, and minority equity investments in Time Warner Inc., Time Warner Cable, and Viacom.

- 2) For definitions of adjusted OIBDA and Adjusted EBITDA (as defined by SiriusXM) and applicable reconciliations see the accompanying schedules.

The following financial information with respect to Liberty Media's equity affiliates and available for sale securities is intended to supplement Liberty Media's consolidated balance sheet and statement of operations to be included in its Form 10-Q.

Cash and Debt

The following presentation is provided to separately identify cash and liquid investments and debt information.

- (1) Includes \$42 million of short-term marketable securities with an original maturity greater than 90 days as of March 31, 2013.
- (2) Includes \$49 million of marketable securities with an original maturity greater than one year as of March 31, 2013, which is reflected in investments in available-for-sale securities in Liberty's condensed consolidated balance sheet.
- (3) Includes \$207 million and \$652 million of cash and liquid investments held at SiriusXM as of March 31, 2013 and June 30, 2013, respectively.
- (4) Outstanding principal amount of Senior Notes and Exchangeable Senior Subordinated Notes with no increase for the premium resulting from purchase accounting.
- (5) Includes margin loans, net of repayments, entered into during the quarter ended June 30, 2013 in connection with the Charter Communications investment.

Total Liberty Media cash and liquid investments decreased \$1.1 billion, primarily as a result of the investment in Charter Communications during the second quarter of 2013 for approximately \$2.6 billion and repurchases of stock by SiriusXM. These cash outflows were partially offset by \$1.4 billion from new loan arrangements entered into during the quarter as part of the Charter acquisition, cash flows from operations at SiriusXM, and net borrowings at SiriusXM during the quarter. Included in the second quarter consolidated cash and liquid investments is \$652 million at SiriusXM. Although SiriusXM is a consolidated subsidiary, they are a separate public company with a significant noncontrolling interest, therefore Liberty may not have ready access to that cash.

Total Liberty Media debt increased by \$2 billion as a result of margin loans entered into during the quarter as part of the Charter Communications acquisition and \$1 billion of senior notes issued by SiriusXM during the quarter, net of other debt repayments.

NON-GAAP FINANCIAL MEASURES

SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for Liberty Media, together with a reconciliation to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring and impairment charges and legal settlements that are included in the measurement of operating income pursuant to GAAP.

Liberty Media believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

The following table provides a reconciliation of adjusted OIBDA for Liberty Media to operating income calculated in accordance with GAAP for the three months ended June 30,

2012, September 30, 2012, December 31, 2012, March 31, 2013 and June 30, 2013, respectively.

SCHEDULE 2

This press release also includes a presentation of Adjusted EBITDA, which is a non-GAAP financial measure used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines Adjusted EBITDA as follows: EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to remove the impact of other income and expense, loss on extinguishment of debt as well as certain other charges discussed below. This measure is one of the primary non-GAAP financial measures on which SiriusXM (i) evaluates the performance of its businesses, (ii) bases its internal budgets and (iii) compensates management. Adjusted EBITDA is a non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the merger of Sirius and XM, (ii) depreciation and amortization and (iii) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. SiriusXM believes adjusted EBITDA is a useful measure of the underlying trend of SiriusXM's operating performance, which provides useful information about its business apart from the costs associated with its physical plant, capital structure and purchase price accounting. SiriusXM believes investors find this non-GAAP financial measure useful when analyzing its results and comparing its operating performance to the performance of other communications, entertainment and media companies. SiriusXM believes investors use current and projected adjusted EBITDA to estimate its current and prospective enterprise value and to make investment decisions. Because SiriusXM funds and builds-out its satellite radio system through the periodic raising and expenditure of large amounts of capital, its results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the

same industry. We also believe the exclusion of share-based payment expense is useful given the significant variation in expense that can result from changes in the fair value as determined using the Black-Scholes-Merton model which varies based on assumptions used for the expected life, expected stock price volatility and risk-free interest rates.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to SiriusXM's statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the merger of Sirius and XM. SiriusXM endeavors to compensate for the limitations of the non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate SiriusXM's operating results after giving effect for these costs, should refer to net income as disclosed in its consolidated statements of comprehensive income. Since adjusted EBITDA is a non-GAAP financial performance measure, SiriusXM's calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of SiriusXM's stand-alone net income to adjusted EBITDA is calculated as follows (in thousands):
