"With our brands delivering record U.S. RevPAR and our global development teams driving net unit growth towards the top end of our initial guidance, we are raising our full-year 2022 outlook. Despite the broader macro-economic climate, we are confident in the continued resiliency of our franchise model as we continue to invest in the business and generate substantial shareholder returns," said Geoffrey A. Ballotti, president and chief executive officer. "This quarter, we grew our development pipeline by 10%, surpassed our full-year development goal for our new extended-stay brand and completed the acquisition of our 23<sup>rd</sup> brand - Vienna House. We remain committed to a disciplined capital allocation strategy that will deliver outstanding value to our shareholders, guests, franchisees and team members in any environment."

Fee-related and other revenues was \$375 million compared to \$377 million in third quarter 2021, which included \$34 million from the Company's select-service management business and owned hotels - both of which were exited in the first half of this year. On a comparable basis, fee-related and other revenues

increased 9% year-over-year reflecting global constant currency RevPAR growth of 12% and higher license fees.

The Company generated net income of \$101 million, or \$1.13 per diluted share, compared to \$103 million, or \$1.09 per diluted share, in third quarter 2021. The decline in net income was primarily due to the exit of the Company's select-service management business and owned hotels, partially offset by higher adjusted EBITDA in the Company's hotel franchising segment. Adjusted EBITDA was \$191 million compared to \$194 million in third quarter 2021, which included a \$10 million contribution from the Company's select-service management business and owned hotels - both of which were exited in the first half of this year. On a comparable basis, adjusted EBITDA increased 4% year-over-year reflecting higher fee-related and other revenues, partially offset by a 600 basis point unfavorable timing impact from the marketing fund.

Full reconciliations of GAAP results to the Company's non-GAAP adjusted measures for all reported periods appear in the tables to this press release.

Global RevPAR was 111% of 2019 levels in constant currency, with the U.S. at 110% and international at 117%. The increases compared to both 2021 and 2019 were driven primarily by stronger pricing power.

Hotel Franchising revenues increased 9% year-over-year to \$367 million primarily due to the global RevPAR increase and higher license fees. Hotel Franchising adjusted EBITDA of \$201 million increased 4% reflecting the growth in revenues, partially offset by an unfavorable timing impact from the marketing fund, excluding which Hotel Franchising adjusted EBITDA would have increased 12%.

Hotel Management revenues decreased 68% year-over-year to \$40 million, including a \$54 million decrease in cost-reimbursement revenues, which have no impact on adjusted EBITDA. Absent cost-reimbursements, Hotel Management revenues decreased \$32 million, or 80%, and adjusted EBITDA decreased \$9 million reflecting the exit of the Company's select-service management business and owned hotels.

During the third quarter 2022, the Company's marketing fund revenues exceeded expenses by \$12 million; while in third quarter 2021, the Company's marketing fund revenues exceeded expenses by \$19 million.

### Table 2 WYNDHAM HOTELS & RESORTS HISTORICAL REVENUE AND ADJUSTED EBITDA BY SEGMENT

The reportable segments presented below represent our operating segments for which separate financial information is available and is utilized on a regular basis by our chief operating decision maker to assess performance and allocate resources. In identifying our reportable segments, we also consider the nature of services provided by our operating segments. Management evaluates the operating results of each of our reportable segments based upon net revenues and adjusted EBITDA. We believe that adjusted EBITDA is a useful measure of performance for our segments which, when considered with GAAP measures, allows a more complete understanding of our operating performance. We use this measure internally to assess operating performance, both absolutely and in comparison to other companies, and to make day to day operating decisions, including in the evaluation of selected compensation decisions. Our presentation of adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. During the first quarter of 2021, we modified the definition of adjusted EBITDA to exclude the amortization of development advance notes to reflect how our chief operating decision maker reviews operating performance beginning in 2021. We have applied the modified definition of adjusted EBITDA to all periods presented.

#### Free Cash Flow:

We define free cash flow to be net cash provided by operating activities less property and equipment additions, which we also refer to as capital expenditures. We believe free cash flow to be a useful operating performance measure to us and investors to evaluate the ability of our operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, our ability to grow our business through acquisitions and investments, as well as our ability to return cash to shareholders through dividends and share repurchases. Free cash flow is not necessarily a representation of how we will use excess cash. A limitation of using free cash flow versus the GAAP measure of net cash provided by operating activities as a means for evaluating Wyndham Hotels is that free cash flow does not represent the total cash movement for the period as detailed in the condensed consolidated statement of cash flows.

Includes proceeds of \$179 million, net of transaction costs, received from the Company's sales of the Wyndham Grand Bonnet Creek Resort and the Wyndham Grand Rio Mar Resort and \$84 million of proceeds from CorePoint Lodging related to the Company's exit of its select-service management business.

<sup>(</sup>b) Third quarter year-over-year decline primarily relates to higher payments of development advance notes and the timing of working capital.

# Table 7 WYNDHAM HOTELS & RESORTS NON-GAAP RECONCILIATIONS (In millions)

The tables below reconcile certain non-GAAP financial measures. The presentation of these adjustments is intended to permit the comparison of particular adjustments as they appear in the income statement in order to assist investors' understanding of the overall impact of such adjustments. We believe that adjusted EBITDA, adjusted net income and adjusted EPS financial measures provide useful information to investors about us and our financial condition and results of operations because these measures are used by our management team to evaluate our operating performance and make day-to-day operating decisions and adjusted EBITDA is frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry. These measures also assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods, by adjusting for certain items which may be recurring or non-recurring and which in our view do not necessarily reflect ongoing performance. We also internally use these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions. These supplemental disclosures are in addition to GAAP reported measures. These non-GAAP reconciliation tables should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP.

#### NOTE: Amounts may not add due to rounding.

- (a) Amount in 2022 relates to non-cash charges associated with the Company's extension of its revolving credit facility and the prepayment of \$400 million of its term loan B. Amount in 2021 relates to the redemption premium and non-cash expenses associated with the early redemption of the Company's 5.375% senior unsecured notes.
- (b) Represents the non-cash amortization of development advance notes, which is now excluded from adjusted EBITDA to reflect how the Company's chief operating decision maker reviews operating performance.
- (c) Represents costs associated with the Company's spin-off from Wyndham Worldwide.
- (d) Represents net gain on sale of the Company's owned hotel, the Wyndham Grand Bonnet Creek Resort. There was no gain or loss on sale of the Company's Wyndham Grand Rio Mar Resort as the proceeds received approximated adjusted net book value.

- (f) 2021 represents a non-cash charge to reduce the carrying values of the Company's owned hotels long-lived assets to their fair value in connection with the Company's Board approval of a plan to sell these assets in 2022. 2020 represents a non-cash charge to reduce the carrying values of certain intangible assets to their fair values principally attributable to higher discount rates primarily resulting from increased share price volatility, partially offset by \$3 million of cash proceeds from a previously impaired asset.
- (9) Represents charges associated with restructuring initiatives implemented in response to the effects on travel demand as a result of COVID-19.
- (h) Primarily relates to integration costs incurred in connection with the Company's acquisition of La Quinta.

Net income for full-year 2021 was \$244 million. Please see Table 7 for reconciliation.

In determining adjusted EBITDA, interest expense, net, adjusted income before income taxes, adjusted net income, adjusted diluted EPS and free cash flow conversion rate, we exclude certain items which are otherwise included in determining the comparable GAAP financial measures. We are providing these measures on a non-GAAP basis only because, without unreasonable efforts, we are unable to predict with reasonable certainty the occurrence or amount of all the adjustments or other potential adjustments that may arise in the future during the forward-looking period, which can be dependent on future events that may not be reliably predicted. Based on past reported results, where one or more of these items have been applicable, such excluded items could be material, individually or in the aggregate, to the reported results.

<sup>(</sup>b) Excludes amortization of acquisition-related intangible assets of ~\$32 million.

<sup>(</sup>c) Outlook assumes an effective tax rate of approximately 25%.

<sup>(</sup>d) Excludes the impact of any share repurchases after September 30, 2022.

<sup>(</sup>e) Represents recovery of \$49 million investment made by the Company in 2020. Combined with \$18 million recovered in 2021, the Company expects to have recaptured \$38 million of the \$49 million investment, with the remaining \$11 million expected to be recaptured in future years.

Represents the percentage of adjusted EBITDA that is expected to produce free cash flow. Free cash flow plus capital expenditures equals net cash from operating activities. Net cash provided by operating activities was \$426 million during 2021.

<sup>(</sup>g) Outlook represents global RevPAR growth of 0% to 2% compared to 2019.

### Table 9 WYNDHAM HOTELS & RESORTS DEFINITIONS

Adjusted Net Income and Adjusted Diluted EPS: Represents net income/(loss) and diluted earnings/(loss) per share excluding acquisition-related amortization, impairment charges, restructuring and related charges, contract termination costs, transaction-related items (acquisition-, disposition-, or separation-related), (gain)/loss on asset sales and foreign currency impacts of highly inflationary countries. The Company calculates the income tax effect of the adjustments using an estimated effective tax rate applicable to each adjustment.

Adjusted EBITDA: Represents net income/(loss) excluding net interest expense, depreciation and amortization, early extinguishment of debt charges, impairment charges, restructuring and related charges, contract termination costs, transaction-related items (acquisition-, disposition-, or separation-related), (gain)/loss on asset sales, foreign currency impacts of highly inflationary countries, stock-based compensation expense, income taxes and development advance notes amortization. Adjusted EBITDA is a financial measure that is not recognized under U.S. GAAP and should not be considered as an alternative to net income/ (loss) or other measures of financial performance or liquidity derived in accordance with U.S. GAAP. In addition, the Company's definition of adjusted EBITDA may not be comparable to similarly titled measures of other companies.

During the first quarter of 2021, the Company modified the definition of adjusted EBITDA to exclude the amortization of development advance notes to reflect how the Company's chief operating decision maker reviews operating performance beginning in 2021. The Company has applied the modified definition of adjusted EBITDA to all periods presented.

Average Daily Rate (ADR): Represents the average rate charged for renting a lodging room for one day.

Average Occupancy Rate: Represents the percentage of available rooms occupied during the period.

**Constant Currency**: Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods (foreign currency translation) and the impact caused by any foreign exchange related activities (i.e., hedges, balance sheet remeasurements and/or adjustments).

Free Cash Flow: See Table 3 for definition.

**Net Debt Leverage Ratio:** Calculated by dividing total debt less cash and cash equivalents by trailing twelve months adjusted EBITDA.

**Number of Rooms:** Represents the number of rooms at the end of the period which are (i) either under franchise and/or management agreements or Company-owned and (ii) properties under affiliation agreements for which we receive a fee for reservation and/or other services provided.

RevPAR: Represents revenue per available room and is calculated by multiplying average occupancy rate by ADR.

**Royalty Rate:** Represents the average royalty rate earned on our franchised properties and is calculated by dividing total royalties, excluding the impact of amortization of development advance notes, by total room revenues.
