BioSig Technologies to Present at the Marcum MicroCap Conference in New York on May 27

Leadership of Emerging Medical Device Company to Present at Prominent MicroCap Investment Gathering

MINNEAPOLIS, May 20, 2015 (GLOBE NEWSWIRE) --[BioSig Technologies](#) (OTCQB:BSGM), a medical device company developing PURE EP(TM) a proprietary technology platform designed to improve the clarity of clinical signals available for electrophysiology (EP) procedures, today announced that it will be present at the [2015 Marcum MicroCap Conference](#) on Wednesday and Thursday, May 27-28, 2015 in New York City at the Grand Hyatt Hotel.

The Company's presentation by Kenneth Londoner, Executive Chairman and Greg Cash, Chief Executive Officer is scheduled to begin at 1:00 p.m. ET on Wednesday, May 27 in the Edison and will be available via a live webcast. To access the webcast, go to <http://wsw.com/webcast/marcum3/bsgm/>.

BioSig Technologies' presentation will focus on informing investors about its leading technology, the PURE EP™ System, which is designed to provide real-time, high clarity cardiac recordings that can be used by electrophysiologists to aide in accurate and efficient diagnostic EP studies and catheter ablation treatments.

The annual Marcum MicroCap Conference is a showcase for public companies with less than \$500 million in market capitalization.

"It is exciting to present at the Third Annual Marcum MicroCap Conference for the first time as a public company," said Kenneth Londoner, Executive Chairman of BioSig Technologies. "We look forward to meeting investors interested in learning about our young and growing enterprise."

About BioSig Technologies

BioSig is a medical device company that has developed a proprietary technology platform

designed to greatly improve the \$3 billion electrophysiology (EP) marketplace(1) (www.biosigtech.com). Led by a proven management team and a veteran, independent Board of Directors, Minneapolis-based BioSig is preparing to commercialize its PURE EP System.

PURE EP is a next-generation surface electrocardiogram and intracardiac multichannel recording and analysis system designed to assist electrophysiologists in making clinical decisions in real-time by acquiring and displaying high-fidelity cardiac signal recordings and providing clarity of data which may be used to guide the EP's in identifying ablation targets - areas of tissue to destroy that otherwise create a heart rhythm disturbance (arrhythmia).

Analysts forecast the global market for EP devices will grow at a 12.1 percent compound annual growth rate, from \$2.5 billion in 2012 to \$5.5 billion by 2019(1) - making it one of the fastest growing medical device segments. Just in the US, the number of Atrial Fibrillation (AF) and Ventricular Tachycardia (VT) arrhythmia ablations is forecast to grow at 10.5 percent from 2012 to 2017(2).

BioSig intends to seek FDA 510(k) clearance for the PURE EP System. The Company has already achieved proof of concept validation through UCLA EP & Animal Labs and has performed preclinical studies at the Mayo Clinic in Minnesota. BioSig is collaborating with several of the nation's most prestigious cardiac arrhythmia centers including Texas Cardiac Arrhythmia Institute, UCLA Cardiac Arrhythmia Center, and Mayo Clinic.

About the Marcum MicroCap Conference

The Marcum MicroCap Conference is dedicated to providing a forum where publicly traded companies under \$500 million in market capitalization can network with the investment community. The conference features presentations by CEOs and CFOs from six principal industry sectors and provides investors with the opportunity to meet with management of these companies on a one-on-one basis. Industry sectors include Technology, Media & Internet; Software & Business Services; Life Science & Healthcare; Retail & Consumer Products; Energy & Natural Resources; and Industrials. The conference additionally includes a full agenda of panel discussions on issues of strategic importance to small cap issuers and investors, moderated by industry leaders.

The Marcum MicroCap Conference attracts fund managers and high net worth investors focusing on small cap equities. Over 2,000 participants from all segments of the microcap market attend each year, including senior management, finance and legal executives, venture and lower middle-market private equity investors, institutional investors, directors, investment bankers, buy- and sell-side analysts, and service providers to the microcap marketplace.
