

Orgenesis Ranked 5th Fastest Growing Technology Company in Maryland and 208th in North America on Deloitte's 2019 Technology Fast 500™

GERMANTOWN, Md., Nov. 26, 2019 (GLOBE NEWSWIRE) -- [Orgenesis Inc. \(NASDAQ: ORGS\)](#) ("Orgenesis" or the "Company"), a leading cell and gene therapy enabling company providing centralized CDMO manufacturing and development services through its subsidiary Masthercell Global, Inc., as well as localized point-of-care development and processing centers, today announced it has been ranked the 5th fastest growing technology company in Maryland and 208th in North America on Deloitte's 2019 Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and energy tech companies in North America. Orgenesis' revenue increased 527% during the period from 2015 to 2018.

Vered Caplan, CEO of Orgenesis, commented, "We are very proud to receive this recognition from Deloitte on their prestigious 2019 Technology Fast 500™ list. We continue to establish ourselves as an industry leader in the cell and gene therapy space through our Contract Development and Manufacturing Organization ("CDMO") business, as well as our rapidly evolving POCare platform. We are rapidly gaining traction in the market, as evidenced by our strong year-over-year growth, and remain focused on our goal of bringing autologous therapies to patients in a cost effective, high quality and scalable manner."

About Deloitte's 2019 Technology Fast 500™

Now in its 25th year, Deloitte's Technology Fast 500 provides a ranking of the fastest growing technology, media, telecommunications, life sciences and energy tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2015 to 2018.

About Orgenesis

Orgenesis is a biopharmaceutical company specializing in the development, manufacturing and processing of technologies and services in the cell and gene therapy industry. The Company operates through two platforms: (i) a point-of-care ("POCare") cell therapy platform ("PT") and (ii) a Contract Development and Manufacturing Organization ("CDMO") platform conducted through its subsidiary, Masthercell Global. Through its PT business, the Company's aim is to further the development of Advanced Therapy Medicinal Products ("ATMPs") through collaborations and in-licensing with other pre-clinical and clinical-stage biopharmaceutical companies and research and healthcare institutes to bring such ATMPs to patients. The Company out-licenses these ATMPs through regional partners to whom it also provides regulatory, pre-clinical and training services to support their activity in order to reach patients in a point-of-care hospital setting. Through the Company's CDMO platform, it is focused on providing contract manufacturing and development services for

biopharmaceutical companies. Additional information is available at: www.orgenesis.com.

Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements which are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended. These forward-looking statements involve substantial uncertainties and risks and are based upon our current expectations, estimates and projections and reflect our beliefs and assumptions based upon information available to us at the date of this release. We caution readers that forward-looking statements are predictions based on our current expectations about future events. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Our actual results, performance or achievements could differ materially from those expressed or implied by the forward-looking statements as a result of a number of factors, including, but not limited to, the success of our reorganized CDMO operations, the success of our partnership with Great Point, our ability to achieve and maintain overall profitability, the sufficiency of working capital to realize our business plans, the development of our transdifferentiation technology as therapeutic treatment for diabetes which could, if successful, be a cure for Type 1 Diabetes; our technology not functioning as expected; our ability to retain key employees; our ability to satisfy the rigorous regulatory requirements for new procedures; our competitors developing better or cheaper alternatives to our products and the risks and uncertainties discussed under the heading "RISK FACTORS" in Item 1A of our Annual Report on Form 10-K for the fiscal year ended November 30, 2018, and in our other filings with the Securities and Exchange Commission. We undertake no obligation to revise or update any forward-looking statement for any reason.
