MEDIA ALERT: Equinix to Discuss Multi-Cloud Service Orchestration at Mobile World Congress

Interconnection leader to co-present with AT&T, Cisco and others

REDWOOD CITY, Calif., Feb. 25, 2015 /PRNewswire/ -- Equinix, Inc., the global interconnection and data center company, today announced that Ihab Tarazi, chief technology officer, will speak on a panel discussion titled, "The Business Case for NETCONF and YANG," at Mobile World Congress 2015, taking place in Barcelona, Spain, March 2-5, 2015. The panel discussion will take place on Tuesday, March 3 from 5-6 p.m., at the South Entrance, Level 1 – Room CC1.4, and will also feature executives from AT&T, Cisco, Deutsche Telekom, Level 3 and more.

Additionally, Mr. Tarazi will present a special Equinix use case, "Network Service Orchestration Case Study: Equinix," at 12 p.m. in the same location. In this session, participants will learn how Equinix is building its state-of-the-art programmable network based on Cisco Network Service Orchestrator (NSO), enabled by Tail-f. Space is limited for both sessions, and therefore attendees are encouraged to register early by completing this registration form.

For network and service providers interested in hearing more about Equinix's multi-cloud capabilities and mobile solutions, Equinix will host meetings at Mobile World Congress 2015 in Hall 2 Stand 2D7MR. To request a meeting, click here.

Forward Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, the challenges of acquiring, operating and constructing IBX centers and developing, deploying and delivering Equinix services; unanticipated costs or difficulties relating to the integration of companies we have acquired or will acquire into Equinix; a failure to receive significant

revenue from customers in recently built out or acquired data centers; failure to complete any financing arrangements contemplated from time to time; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay new or outstanding indebtedness; the loss or decline in business from our key customers; and other risks described from time to time in Equinix's filings with the Securities and Exchange Commission. In particular, see Equinix's recent quarterly and annual reports filed with the Securities and Exchange Commission, copies of which are available upon request from Equinix. Equinix does not assume any obligation to update the forward-looking information contained in this press release.
