MicroVision Announces Second Quarter 2018 Results

Revenue for the second quarter of 2018 was $2.0 million, compared to $1.3 million for the second quarter of 2017. MicroVision's net loss for the second quarter of 2018 was $8.5 million, or $0.10 per share, compared to a net loss of $5.7 million, or $0.08 per share for the second quarter of 2017.

“I am pleased with the progress we are making with our revised Go-to-Market strategy targeting Tier 1 technology leaders who have the capabilities to leverage our innovative solutions. We entered into a display-only license agreement with a global technology company to address one of our five targeted vertical markets. We remain on track with the $24 million contract we signed in April 2017 and have been advised by our customer that we should expect a product launch sometime in 2019,” said Perry Mulligan, MicroVision's Chief Executive Officer.

“Over the last two months we also raised cash to bolster our balance sheet through a public stock offering that netted over $16 million. Additionally, the display-only license agreement provided $5 million in license fees in Q2, and is expected to provide another $5 million in Q4,” Mulligan added.

The company has implemented Revenue Standard ASC 606 for the year beginning January 1, 2018. The Company transitioned to the new standard using the full retrospective approach, and per the standard, historical periods have been adjusted as if the new standard was in place for historical periods.

Financial Results Conference Call

The company will host a conference call today to discuss its second quarter 2018 results and current business operations at 5:00 p.m. ET/2:00 p.m. PT. Interested parties can listen to the company’s conference call by accessing the MicroVision website’s Investor Events Calendar page or dialing 1-877-883-0383 (for U.S. participants) or 1-412-902-6506 (for international participants) ten minutes prior to the start of the call using pass code number 6154686. A replay webcast of the call will also be available from the MicroVision website’s Investor Events Calendar page.

About MicroVision

MicroVision is the creator of PicoP® scanning technology, an ultra-miniature laser projection and sensing solution for mobile consumer electronics, automotive head-up displays and other applications. MicroVision’s patented technology is a single platform that can enable
projected displays, image capture and interaction for a wide array of future-ready products in this rapidly evolving, always-on world. Extensive research has led MicroVision to become an independently recognized leader in the development of intellectual property. MicroVision’s IP portfolio has been recognized by the Patent Board as a top 50 IP portfolio among global industrial companies and has been included in the Ocean Tomo 300 Patent Index. The company is based in Redmond, Wash.

Forward-Looking Statements

Certain statements contained in this release, including those relating to providing solutions, benefits under license agreements, progress on development contracts, potential customer agreements, potential demand for MicroVision technology and products, progress on Go-To-Market strategy, potential products and applications, features of MicroVision technology, and those containing words such as “expect” are forward-looking statements that involve risks and uncertainties. Factors that could cause actual results to differ materially from those projected in the company's forward-looking statements include the following: our ability to raise additional capital when needed; products incorporating our PicoP display technology may not achieve market acceptance, commercial partners may not perform under agreements as anticipated, we may be unsuccessful in identifying parties interested in paying any amounts or amounts we deem desirable for the purchase or license of IP assets, our or our customers' failure to perform under open purchase orders; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims; and other risk factors identified from time to time in the company's SEC reports, including the company's Annual Report on Form 10-K filed with the SEC. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.
