Test Menu and Specimen Collection

EpiSwitch Prostate Cancer Detection (PSE) Test: Blood test that identifies an individual's likelihood of having prostate cancer.	Accepted Specimen Type: Whole blood, EDTA Tube Follow mailing instructions in the specimen collection kit.	Minimum Volume Required: 3 mL	Month	Day	Year
			Specimen Collection Date		

Intended Use and Technical Information

Intended Use: EpiSwitch Prostate Cancer Detection (PSE) Test is a blood-based test for prostate cancer that evaluates the PSA score plus a targeted PCR evaluation of five (5) DNA regulatory markers called chromatin-conformation signatures (CCS). The PSE test accurately predicts the presence or absence of prostate cancer; the significance, stage, and/or grade of the cancer will be determined from the biopsy. This information is valuable in determining who should proceed to biopsy and who can be placed on active surveillance without additional testing.

EpiSwitch Prostate Cancer Detection (PSE) Test is a laboratory developed test (LDT). It has not been reviewed or cleared by the US Food and Drug Administration. The laboratory is certified under the Clinical Laboratory Improvement Amendments (CLIA) to perform high-complexity clinical testing. Decisions regarding patient care and treatment should not be solely based on a single test such as this test, rather, on the independent medical judgment of the treating provider taking into consideration all available information concerning the patient's conditions, including other clinical tests, in accordance with the standard of care in each healthcare setting.

Billing Information

<input type="radio"/> Insurance	Please attach a clear copy of the front & back of the patient's insurance card(s) in addition to the demographic sheet. If two cards are submitted, indicate which one is primary. Patient relation to policy holder: <input type="radio"/> Self <input type="radio"/> Spouse <input type="radio"/> Child <input type="radio"/> Other
<input type="radio"/> Institutional Account	To establish an account, call Customer Service.
<input type="radio"/> Self-pay	For self-pay patients, call Customer Service for required forms.

FINANCIAL POLICIES SUMMARY

Thank you for choosing Oxford BioDynamics Inc. (OBD)

Prior to receiving services, please read our patient financial policies below. If you have any questions, you may contact our Customer Service team at 1-888-236-8896

You will provide OBD with current and accurate insurance, health care benefits program and/or other payer information, and to immediately notify us if your coverage changes.

- You acknowledge that OBD will bill your insurance plan or program for services provided by OBD. You agree you are assigning your right to receive payment or benefits from such insurer or program to OBD. You are authorizing payment to be made directly to OBD.
- You may be responsible for payment to OBD of any co-pays, deductibles and co-insurance applicable under your insurance policy, plan or program.
- Depending on your insurer, plan or program, some services may not be covered. If your insurance does not authorize or cover a service or treatment and you nevertheless decide to receive such service, you agree that you are responsible for payment. This applies to all payers in accordance with all applicable law and regulation and payer requirements (including any “advance beneficiary notice” (ABN) which may be applicable).
- To facilitate payment of claims, to perform internal operations and to coordinate your care with other health care providers, OBD will use your personal health information internally and will share such information with your insurance provider and certain business associates of OBD in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and other applicable federal and state law and regulation.
- The patient’s potential out of pocket expense for OBD services is dependent on their insurance plan’s coverage and cost sharing policies. Financial relief may be available, the patient may contact OBD with questions about financial assistance options if the patient receives a bill from OBD.
- These policies will apply to you and may change from time to time without notice.

How to **BOOST** the accuracy of your blood test for prostate cancer to **94%**?

Meet with your physician and order the PSE test

The EpiSwitch® Prostate Cancer Detection (PSE) Test can only be ordered by a physician using the PSE Requisition Form

- Download the [Requisition Form](https://mypse.co/94-percent) at <https://mypse.co/94-percent>

Complete the Requisition Form

Work with your physician to complete the [Requisition Form](#)

- Your physician will **fax** the completed form to **240-913-5681**

Provide a small blood sample

- PSE Customer Service will send you or your physician a Specimen Submission Kit to ship your blood sample
- Coordinate with your provider to schedule a blood draw

Receive your PSE test result

In approximately 5 days of receiving the sample, your prostate cancer result will be sent to your physician

- With 94% accuracy, you and your physician can move forward with confidence
