Amesite Demonstrates AI Content Generation with AI Narration on its V6 Platform, Showing How Any Customer Can Scale Offerings

DETROIT, April 18, 2023 (GLOBE NEWSWIRE) -- Amesite Inc. (NASDAQ: AMST), a leading artificial intelligence software company offering a cloud-based learning platform for business and education markets, announces today the demonstration of AI generated content with AI narration capabilities on its recently launched Version 6.0 platform, [complementing its recent GPT-4 integration](#). The capabilities, demonstrated in [Amesite's free-to-the-public course on ChatGPT](#), demonstrate how content can be created with high efficiency and scalability, along with purpose-built, AI-driven features to support user learning.

Amesite CEO, Dr. Ann Marie Sastry said, "Generative AI models are producing increasingly realistic and advanced outputs, enabling more efficient production of content and instruction to make education more accessible. Use of AI is transforming instructional design to make it more effective, lower cost and more relevant, and Amesite is committed to making sure our Customers can utilize it to build their content portfolios."

Amesite VP Sales, Brandon Owens, said, "Our Customers need to build learning products efficiently and this technology makes it possible, by having content generators utilize AI tools. We are excited to offer this capability and to enable the public to experience it."

Amesite's free ChatGPT course is now equipped with AI-narrated videos; [registration is available here](#). The course was produced using generative AI tools to create scripts and narrations. The creation of the AI narrated videos for the lectures utilizes a combination of natural language processing, machine learning, and generative AI models to generate and create the scripts, and animate the narrator.

About Amesite Inc.
