# **Profire Energy to Hold Shareholder Meeting & Open House on January 29, 2013**

## **Annual Shareholder Meeting to Include Election of Board of Directors and Ratification of Accounting Firm; Public Open House to be Held Immediately After**

LINDON, Utah, Jan. 4, 2013 (GLOBE NEWSWIRE) -- Profire Energy, Inc. (OTCBB:PFIE), which manufactures, installs and services burner management systems and other combustion management technologies for the oil and gas industry, today announced that it will be hosting its annual shareholder meeting on January 29, 2013 at 10:00 a.m. The shareholder meeting will be held at Profire's headquarters in Lindon, Utah, and is open only to shareholders of the company. The shareholder meeting will be followed by a public open house starting at 10:45 a.m., where community members, customers, and press are invited to tour Profire's facilities.

"Our shareholders are an integral part of this company, and are critical to our long-term success; ultimately, all that we do at Profire is intended to bring more value to each shareholder," said Andrew Limpert, chief financial officer, Profire Energy, "We look forward to this year's annual shareholder meeting at our offices in Utah, and to meeting more of our valued stakeholders."

The shareholder meeting will include the election of directors, the ratification of Sadler, Gibb & Associates, LLC as the company's accounting firm, and other items. The subsequent open house will allow visitors to tour corporate offices, meet employees, and see the company's products demonstrated by Profire representatives.

The address of Profire Energy's headquarters (where the day's events will be held) is 321 South 1250 West, Lindon, UT 84042.

### **About Profire Energy, Inc.**

Profire Energy assists energy production companies in the safe and efficient transportation, refinement and production of oil and natural gas. As energy companies seek greater safety for their employees, compliance with more stringent EPA standards and enhanced margins with their energy production processes, Profire Energy's burner management systems are increasingly becoming part of their solution. To learn more about the company's products and services, please visit [www.profireenergy.com](http://www.profireenergy.com). Profire has offices in Lindon, Utah; Houston, Texas; and Edmonton, Alberta, Canada.
