Profire Energy Reports Financial Results for Fiscal First Quarter 2016

Company Realizes Quarterly Net Increase in Cash of \$3.1 Million Amid Difficult Industry Conditions and Reduced Revenues; Fiscal 2016 Guidance Reaffirmed

LINDON, Utah, Aug. 10, 2015 (GLOBE NEWSWIRE) -- Profire Energy, Inc. (NASDAQ:PFIE), a technology company which creates, installs and services burner and chemical management solutions in the oil and gas industry, today reported financial results for its fiscal first quarter of 2016 ended June 30, 2015. A conference call will be held on Monday, August 10, 2015 at 5:00 p.m. EDT to discuss the results.

Fiscal Q1 2016 Highlights

- Cash at period-end totaled \$17.2 million
- Net cash provided from operating activities during the period totaled \$2.9 million
- Significant cost reductions completed during the period; Operating Expenses reduced to \$3.9 million for the quarter, a reduction of over \$700,000 from Q4 FY2015
- Expansive search for new Chief Financial Officer undertaken, nearing completion

Fiscal Q1 2016 Financial Results

Total revenues for the quarter of \$6.9 million reflected a decrease of 48%, compared to the comparable period last year. This decrease was principally attributable to the reduced purchasing from companies in the oil and gas industry stemming from budget constraints derived from a drastic decline in the underlying commodity prices year over year. Though the Company expects the difficult industry environment to continue for some time, it is focusing resources in geographic areas that we believe will produce the highest level of total revenues and return on investment, while also focusing on initiatives that might help reduce its long-term exposure to the industry's volatility.

Gross profit percentage during the three months ended June 30, 2015 decreased from 57% to 48% compared to the comparable period ended June 30, 2014.

The Company's total operating expenses during the three months ended June 30, 2015 decreased \$217,626, or 5%, compared to the comparable period ended June 30, 2014. As a percentage of total revenues, total operating expenses during the three months ended June 30, 2015 increased from 31% to 56%, compared to the comparable period ended June 30, 2014.

Net loss was \$(458,813) or \$(0.01) per diluted share, compared to net income of \$2.2 million or \$0.05 per diluted share in the same prior year period. The quarter represents a

rare loss in the Company's seven-year history as a public entity.

Cash and cash equivalents totaled \$17.2 million at June 30, 2015, as compared to \$14.1 million at March 31, 2015. The Company continues to operate debt-free.

Management Commentary

"Certainly, the industry is having a tough time right now, and many companies are undergoing difficult transitions," said Brenton Hatch, President and CEO of Profire Energy. "We anticipate a relatively difficult fiscal year, as we've noted previously, but are absolutely confident in our ability to navigate the challenges that lie ahead, and are assured we have the internal talent and resources to do so. We believe we are well-positioned to weather the storm, and are focused on becoming a more robust and efficient organization during this challenging time."

"We continue to operate without debt, which—coupled with our significant cash reserves of over \$17 million—affords us significant staying power amid the current industry turbulence," said Nathan McBride, VP Finance & Strategy of Profire Energy. "We have acted quickly as a management team to dramatically reduce operating costs, while giving great consideration to our long-term strategic goals, and ensuring we don't significantly impair our strategic position as a company. We feel that we have done both very effectively."

Fiscal 2016 Guidance

The Company reaffirmed its Fiscal 2016 guidance. For fiscal 2016, total revenues are expected between \$25.0-30.0 million with net income of \$(1.0)-2.0 million. We expect a stronger performance in the second half of Fiscal 2016 resulting from an anticipated improvement in the business outlook and the company's sales and marketing capability.
