Akoustis to Webcast Investor Update Conference Call on October 31, 2018 at 11:00 a.m. EDT

Charlotte, N.C., Oct. 30, 2018 (GLOBE NEWSWIRE) -- Akoustis Technologies, Inc. (NASDAQ: AKTS) ("Akoustis" or the "Company"), a manufacturer of patented bulk acoustic wave (BAW) high-band RF filters for mobile and other wireless applications, will host an investor call to provide a business update and outlook on October 31, 2018 at 11:00 a.m. Eastern Daylight Time. Management will host a question and answer session at the end of the call.

To listen to the call by telephone, please dial 1 (877) 407-9208 (domestic) or 1 (201) 493-6784 (international). The conference call will be webcast live on the Company's website and will be available for playback at the following URL: <https://ir.akoustis.com/ir-calendar>.

About Akoustis Technologies, Inc.

Akoustis® (<http://www.akoustis.com>) is a BAW RF filter solutions company that has pioneered a next-generation of materials science and MEMS wafer manufacturing to address the market requirements for improved RF filters - delivering high bandwidth, high operating frequencies and higher output power compared to incumbent polycrystalline BAW technology deployed today. The Company utilizes its proprietary [XBAW manufacturing process](#) to produce bulk acoustic wave RF filters for mobile and other wireless markets, which facilitate data transmission and signal acquisition between the antenna and digital back end. Filter performance is driven by high-purity, single-crystal and associated piezoelectric materials along with our MEMS-based resonator-filter process technology.

Akoustis services the multi-billion-dollar RF filter market using its integrated design and manufacturing (IDM) business model. The Company owns and operates a 120,000 sq. ft. ISO-9001:2015 certified [commercial wafer-manufacturing facility located in Canandaigua, NY](#), which includes class 100 and class 1000 cleanroom facilities - tooled for 150-mm diameter wafers - for the design, development, fabrication and packaging of RF filters, MEMS and other semiconductor devices. Akoustis Technologies, Inc. is headquartered in the Piedmont technology corridor near Charlotte, North Carolina.
