This presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenue or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, business trends and other information that is not historical information. When used in this presentation, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes,” “forecasts,” or future or conditional verbs, such as “will,” “should,” “could” or “may,” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, management’s examination of historical operating trends and data, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs and projections will be achieved.

The forward-looking statements in this release are subject to uncertainty and changes in circumstances and involve risks and uncertainties that may affect the company’s operations, markets, products, services, prices and other factors as discussed in the Huntsman companies’ filings with the U.S. Securities and Exchange Commission. Significant risks and uncertainties may relate to, but are not limited to, ongoing impact of COVID-19 on our operations and financial results, volatile global economic conditions, cyclical and volatile product markets, disruptions in production at manufacturing facilities, timing of proposed transactions, reorganization or restructuring of Huntsman’s operations, including any delay of, or other negative developments affecting the ability to implement cost reductions and manufacturing optimization improvements in Huntsman businesses and realize anticipated cost savings, and other financial, economic, competitive, environmental, political, legal, regulatory and technological factors. Any forward-looking statement should be considered in light of the risks set forth under the caption “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2020, which may be supplemented by other risks and uncertainties disclosed in any subsequent reports filed or furnished by us from time to time.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date made. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

This presentation contains financial measures that are not in accordance with generally accepted accounting principles in the U.S. ("GAAP"), including adjusted EBITDA, adjusted EBITDA from discontinued operations, adjusted net income (loss), adjusted diluted income (loss) per share, free cash flow and net debt. Reconciliations of non-GAAP measures to GAAP are provided through the “Non-GAAP Reconciliation” link available in the ‘Financials’ section on the Company’s website at www.huntsman.com/investors.

The Company does not provide reconciliations of forward-looking non-GAAP financial measures to the most comparable GAAP financial measures on a forward-looking basis because the Company is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, (a) business acquisition and integration expenses, (b) merger costs, and (c) certain legal and other settlements and related costs. Each of such adjustments has not yet occurred, are out of the Company’s control and/or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information.
## Huntsman’s Portfolio Today

### Polyurethanes

- **1Q21 LTM Sales Revenue**: $3.8 billion (60%)
- **1Q21 LTM Adj. EBITDA**: $595 million (64%)
- **Key End Markets**: Insulation, Adhesives, coatings, elastomers & footwear, Automotive, Construction materials, Other industrial markets

### Performance Products

- **1Q21 LTM Sales Revenue**: $1.0 billion (16%)
- **1Q21 LTM Adj. EBITDA**: $169 million (18%)
- **Key End Markets**: Fuel & lubricant additives, Gas treating, Polyurethane additives, Coatings & adhesives, Construction materials

### Advanced Materials

- **1Q21 LTM Sales Revenue**: $0.9 billion (14%)
- **1Q21 LTM Adj. EBITDA**: $126 million (13%)
- **Key End Markets**: Transportation adhesives, Industrial adhesives, Coatings & construction, Electrical insulation

### Textile Effects

- **1Q21 LTM Sales Revenue**: $0.6 billion (10%)
- **1Q21 LTM Adj. EBITDA**: $47 million (5%)
- **Key End Markets**: Apparel, Furnishings, Transportation, Protective fabrics

### Total

- **1Q21 LTM Sales Revenue**: $6.3 billion
- **1Q21 LTM Adj. EBITDA**: $771 million
- **Key End Markets**: Construction & industrial applications, Transportation, Adhesives, Coatings, Elastomers

### Note:

All figures reflect Huntsman Corporation continuing operations.

(1) Percent of total excludes Corporate, LIFO and other eliminations.
Simplification and Portfolio Transformation

- Divested Base Chemicals
- Divested Polymers
- Acquired Textile Effects
- Acquired Rockwood’s TiO2 and Additives assets (2014)
  - Announced the intention to IPO the business in 2 years
- Divested EU Surfactants (2016)
- Acquired Demilec (2018)
- Divested Chemical Intermediates businesses (2020)
- Acquired Icynene-Lapolla (2020)
- Acquired CVC Thermoset Specialties (2020)
- Divested DIY Consumer Adhesives business (2020)
- Acquired Gabriel Performance Products (2021)

Note: Reflects proportion of sales revenue by segment or product group. Upstream Intermediates & Other includes intercompany sales.
Sustainability is Huntsman

Sustainable Solutions are the Core of Huntsman’s Portfolio

- **Reduce Energy Consumption**
  - Superior insulation for buildings, homes, and the cold chain

- **Improve Fuel Efficiency**
  - Specialty adhesives, foams and additives which bring light weighting properties and increase battery lifespan

- **Improve Alternative Energy Production**
  - Amines and specialty resins enabling alternative energy

- **Water Conservation**
  - Textile dyes which require dramatically less water

Solutions Strategically Aligned with Global Infrastructure Plans

Huntsman transforms PET scrap into energy-saving formulations

![Image of PET bottle recycling process]
ULTRAPURE™ Ethylene Carbonate
Growth in Electric Vehicles Creates Increasing Demand

Technology Overview

Rapid development of emerging market trends for electrification in transportation and grid level energy storage is driving demand for rechargeable batteries with high energy capacities, stability and a long lifespan.

Huntsman’s Solution:
Huntsman’s ULTRAPURE™ Ethylene Carbonate enhances the electrolyte solution by forming a protective layer which increases operating voltage, improves safety and adds stability. With its very low impurities, it also improves the lifespan of batteries.

Note (1): High purity ethylene carbonates are ~1/3 of total solvents by weight

Market Overview

- Global high purity ethylene carbonate demand used in batteries is expected to roughly triple by 2026
- Total battery demand in MWhs for electric vehicles growing at ~26% CAGR
- Multiple new electrolyte plants are planned to support new battery facilitates in North America and Europe
- Battery production capacity is expected to grow substantially in both America and Europe over the next several years

Huntsman’s Advantage

- Huntsman is the only US producer of ethylene carbonate
- Nearly 20 years of experience producing ULTRAPURE™ Ethylene Carbonate resulting in superior purity and quality to meet electric vehicle battery needs
- Innovating around core strengths in carbonates and amines technology to expand product offerings in lithium batteries
Strong Flexible Balance Sheet and Liquidity Position

  - Organic capital hurdle rate of >20% & inorganic IRR of >mid-teens
Integrated Supply of the World’s Most Cost-Efficient Energy-Saving Insulation

Huntsman MDI + Huntsman TEROL polyols =

TEROL polyols consume the equivalent of approximately ten thousand recycled PET plastic bottles per average insulated home

Average home requires ~1,500lbs of spray foam

A Leader in the Spray Polyurethanes Foam Insulation Industry

Huntsman Building Solutions is Targeting $100 million in EBITDA in 2021

Growing SPF Industry

- SPF market represents only ~15% of total North American insulation market
- SPF market has been growing at a CAGR of ~7% over the last 7 years

(1) Demilec and Icynene-Lapolla EBITDA includes earnings in the businesses prior to Huntsman ownership.
Huntsman Building Solutions
World’s Most Cost-Efficient Energy-Saving Insulation

U.S. Energy Consumption

- Transportation 28%
- Industrial 33%
- Commercial Buildings 18%
- Residential Buildings 21%

Spray Polyurethane Foam Energy Savings

- Buildings account for ~40% of US energy consumption
- ~40% of the energy used in buildings goes into heating and cooling
- SPF insulation can reduce heating and cooling energy load by ~30%-50%
- Average homeowner experiences a ~50% reduction in their energy bill, which equates to less than a four-year payback period

Significant long-term opportunity for growth by leveraging our global footprint

North America
- SPF 15%
- Other Insulants 85%
- Total Market* $11.5 billion

Europe
- SPF 5%
- Other Insulants 95%
- Total Market* $12.3 billion

APAC
- SPF 4%
- Other Insulants 96%
- Total Market* $17.0 billion

*Source: Freedonia

- Leading SPF Manufacturer globally
- #1 SPF Manufacturer in North America
- One of the Largest Insulation Manufacturers Globally

New Crude MDI Splitter in Geismar, LA

**Overview**

- Announced plan to construct new state-of-the-art MDI splitter in Geismar, LA to increase total splitting capacity
- Will increase flexibility for splitting higher margin MDI in Americas, similar split ratio to existing Europe and China facilities
- IRR substantially higher than 20% hurdle rate
- Expected operations in 2022

**Replicating Global Success**

- Leverages learning from successful projects in Rotterdam & Caojing
- Modular build and design approach
- Site location minimizes interference with existing operations

**Investment to Accelerate Differentiation**

**Geismar, LA**
Indicative product split with new splitter

**Today's Capability**

**With New Splitter**
Performance Products Overview

Revenue Contribution

- Performance Amines
  - ~15% - 20%
- Ethyleneamines
  - ~5% - 15%
- Maleic Anhydride
  - ~20% - 25%

Adj. EBITDA Margin

- Performance Amines
  - ~15% - 20%
- Ethyleneamines
  - ~5% - 15%
- Maleic Anhydride
  - ~20% - 25%

Demand Drivers

- Performance Amines
  - Emissions reduction
  - Composite materials
  - Low-VOC polyurethanes
  - Agrochemicals
- Ethyleneamines
  - Coatings and adhesives
  - High-performance lubricants
  - Oilfield chemicals
- Maleic Anhydride
  - Construction
  - Marine and recreational vehicles
  - Food additives

End Markets

- Performance Amines
  - Coating & Adhesives
  - Composites
  - Gas Treating
  - Polyurethane Additives
  - Agrochemicals
- Ethyleneamines
  - Other
  - Fuels & Lubricants
  - Construction
  - Oil Field Technology
  - Coating & Adhesives
  - Paper
- Maleic Anhydride
  - Other
  - Fuels & Lubricants
  - Paper
  - Industrial Markets
  - Construction

Market Positioning

- Performance Amines
  - Polyetheramines: largest global producer with ~50% market share
  - DGA® / Morpholine: ~50% market share
  - Polyurethane additives: ~25% market share in specialty and low-emission catalysts
  - Carbonates: only producer of certain carbonates in North America
- Ethyleneamines
  - Largest global producer with full range of ethyleneamines
  - Market share of ~40% in heavier slates
- Maleic Anhydride
  - Largest global producer of maleic anhydride
  - Market share of ~40% in North America and Europe

Demand Drivers

- Performance Amines
  - Coatings and adhesives
  - High-performance lubricants
  - Oilfield chemicals
- Ethyleneamines
  - Construction
  - Marine and recreational vehicles
  - Food additives
- Maleic Anhydride
  - Emissions reduction
  - Composite materials
  - Low-VOC polyurethanes
  - Agrochemicals
Formulated Systems (tailored material solutions)

Increasing Product Differentiation in Value Chain

Raw Materials
- Allyl Chloride
- Epichlorohydrin
- Phenol
- Acetone
- Bisphenol A

Basic Resins
- Basic Liquid Resin
- Solid Resin
- Solutions

Specialty Components
- Modified Resins
- Multifunctional Resins
- Other chemistries
  - Cyanate Esters
  - Benzoxazines
  - Curatives

Huntsman’s Value Proposition
- Excellent Product Performance
- Innovation Focus
- Effect Formulation Expertise
- Superior Productivity In Use
- Exceptional Supply Reliability
- Focus on Customer Service

Huntsman’s Position

Large Epoxy Players

Advanced Materials Market Positioning
High Value Formulations Business
Acquisition Overview

- **Description:** North American specialty chemical manufacturer serving the industrial adhesives, coatings and composites markets
- **Manufacturing Locations:** Akron, Ohio, and Maple Shade, New Jersey
- **Sales Revenue:** ~$115 million
- **Purchase Price:** ~$300 million, subject to customary closing adjustments; ~10x 2019 adjusted EBITDA, or ~7x – 8x pro forma for synergies (the lower multiple end being dependent upon normal growth market conditions)
- **Completed:** May 18, 2020

Strategic Rationale

- **Expands technology breadth** of Huntsman Advanced Materials’ portfolio through complementary product portfolio
- **Offers unique and highly specialized** toughening, curing and other additives used in a wide range of applications in Huntsman’s current markets
- **Greatly strengthens** Advanced Materials’ position in North America and offers raw materials and other cost synergies
- **Will utilize** Huntsman’s existing asset footprint and routes to market in Europe and Asia to accelerate growth and globalize CVC Thermoset Specialties’ product range

Sales Revenue Breakdown

- **Regional Presence:**
  - Americas: 71%
  - APAC: 15%
  - EMEA: 14%

Application Mix

- **Structural Adhesives:** 36%
- **Other:** 13%
- **Electronics:** 7%
- **Composites:** 16%
- **Coatings:** 28%

A Complementary Product Portfolio

CVC Thermoset Specialties’ resins and additives improve the performance of materials in the specialty segments of the value chain

- **Base Resins**
- **High-Performance Tougheners & Adducts**
- **Specialty Resins & Modifiers**
- **Curing Agents**
- **Specialty Nitrile Latex**
- **Formulations**
Acquisition of Gabriel Performance Products
Expanding Advanced Materials’ Specialty Portfolio

**Acquisition Overview**
- **Description:** North American specialty additives and curing agents manufacturer serving the coatings, adhesives, and composites markets
- **Manufacturing Locations:** Ashtabula, Ohio, Harrison City, Pennsylvania, and Rock Hill, South Carolina
- **2019 Sales Revenue:** ~$106 million
- **Purchase Price:** ~$250 million, subject to customary closing adjustments; ~11x 2019 adjusted EBITDA, or ~8x pro forma for synergies
- **Completed:** January 15, 2021

**Strategic Rationale**
- **Broadens the offering** in our specialty portfolio and is **complementary to our recent acquisition** of CVC Thermoset Specialties
- **Improved efficiencies** post integration
- **Strengthens our North American footprint** and provides significant synergies; **attractive post synergy multiple** of approximately 8 times
- **Opportunity to globalize** newly acquired specialty products across our global footprint and customer base
- **Enhances our competitiveness and our world class formulations business by improving our ability to create differentiation** in our customer’s applications

**Product Globalization Opportunities for Highly Complementary Specialty Portfolio**
**Huntsman Textile Effects Positioning**
