# Capstone Green Energy to Host Third Quarter Fiscal Year 2026 Earnings Conference Call on February 12, 2026

LOS ANGELES--(BUSINESS WIRE)-- [Capstone Green Energy Holdings, Inc.](#) (the "Company" or "Capstone"), together with its subsidiaries (OTCQX: CGEH), a leading provider of behind-the-meter clean microturbine energy solutions for industrial and commercial operations, with solutions designed for emerging datacenter applications, today announced it will host its Third Quarter Fiscal Year 2026 earnings conference call and webcast on Thursday, February 12, 2026, at 1:45 p.m. Pacific Time (4:45 p.m. Eastern Time).

Capstone will release its financial results for the quarter ended December 31, 2025, following market close prior to the call. Company management will discuss quarterly performance, operational highlights, and strategic progress, followed by a live Q&A session.

## Earnings Conference Call and Webcast Details

**Date:** Thursday, February 12, 2026

**Time:** 1:45 p.m. PT / 4:45 p.m. ET

### Participant Dial-In (Listen-Only):

- Domestic: (800) 715-9871
- International: (646) 307-1963
- Conference ID: 3681980

### Webcast Access:

The live webcast will be available via the Investor Relations section of Capstone's website or directly at: [Capstone Green Energy's Q3-FY2026 Earnings Webcast](#)

Following prepared remarks, management will host a question-and-answer session for analysts and address select questions submitted by webcast participants. A replay of the webcast will be archived on the Company's website for a minimum of 90 days.

## About Capstone Green Energy

For nearly four decades, Capstone Green Energy has been a leader in behind-the-meter microturbine technology, pioneering the use of microturbines in distributed power solutions that deliver reliable, continuous energy for mission-critical operations. In collaboration with our global network of dedicated distributors, we have shipped over 10,600 units to 88 countries, helping customers with high-efficiency, on-site energy systems and microgrid

solutions that deliver uninterrupted power and operational resilience.

Our commitment to a cleaner, more resilient energy future remains steadfast. Today, we offer a comprehensive range of microturbine products, from 65kW systems to multi-megawatt solutions, tailored to meet the specific needs of commercial, industrial, and utility-scale customers, with advanced technology designed for emerging datacenter and AI infrastructure applications. In addition to our core microturbine technology, Capstone's growing portfolio includes flexible Energy-as-a-Service (EaaS) offerings, such as build-own & transfer models, PPAs, lease-to-own, and rental solutions, which are designed to deliver maximum value, energy security, and operational flexibility.

Capstone's fast, turnkey power rental solutions provide flexible capacity for mission-critical applications, ideal for customers with limited capital budgets, short-term energy needs, or project-specific requirements. For more information, please contact us at [rentals@CGRNenergy.com](mailto:rentals@CGRNenergy.com).

Capstone has forged strategic partnerships to expand our technological capabilities and market reach. Through these collaborations, we offer advanced technologies that leverage renewable gas and heat recovery solutions—further enhancing the efficiency, reliability, and operational flexibility of our clients' operations. These integrated offerings reflect our commitment to delivering resilient energy solutions for the evolving power infrastructure landscape.
