Rubicon Global Research Initiates Research Coverage on Coda Octopus Group, Inc (OTC: CDOC) With Strong Buy Rating and \$3 Price Objective

NEW YORK, NY -- (MARKET WIRE) -- 04/25/07 -- Coda Octopus Group, Inc (PINKSHEETS: CDOC), a world leader in port security technology, headquartered here, today said Rubicon Global Research has Initiated Research Coverage on the Company with a Strong Buy Rating and \$3 Price Objective.

The report provides an in depth and sophisticated analysis of the technology, products and markets addressed by the Company, in particular its revolutionary 3D real time sonar, and the critical role these products are expected to play in the next generation of underwater port security.

In the report, Rubicon states, "In our opinion, real time, 3D sonar, the Echoscope and derivative products like the UIS have transformational qualities that will disrupt the current state of the sonar marketplace. Further, we believe the Company is poised to embark on a period of rapid growth (5-yr, 45% CAGR estimated) over the next several years leading to substantial increases in revenue, earnings and cash flow."

The report, which was written by analyst Scott Butler, concludes by recommending the Company's stock as a "Strong Buy."

About Coda Octopus

Founded in 1994, Coda Octopus is recognized internationally as a leading developer of underwater technologies for imaging, mapping, defense and survey applications. Based in New York, with R&D, manufacturing, and sales facilities in the UK, Norway, and Florida, its key products include Octopus precision motion sensors, Coda and Octopus marine software and systems, Octopus thermal printers and the unique Coda Echoscope(TM) -- the first real time 3D sub sea sonar with a variety of applications within navies and for sub sea construction. The Echoscope is the heart of the Coda Octopus Underwater Inspection System used for homeland security in ports around the world. With this patented new product, which revolutionizes sub sea visualization, Coda Octopus believes it is well on its way to becoming the world's leading sonar technology company.
