Coda Octopus Group Sets Fiscal Second Quarter 2024 Earnings Conference Call for Wednesday, June 12, 2024, at 10 a.m. Eastern Time

Orlando, FL, May 23, 2024 (GLOBE NEWSWIRE) -- [Coda Octopus Group, Inc.](#) ("CODA" or the "Company") (NASDAQ: CODA), a global market leader in real-time 3D/4D/5D and 6D imaging sonar technology for real-time subsea intelligence and diving technology, will host a conference call on Wednesday, June 12, 2024 at 10:00 a.m. Eastern time to discuss its results for its fiscal second quarter ended April 30, 2024 ("SQ2024"). A press release detailing these results will be issued before the open of trading on June 12, 2024.

The Company's management will provide prepared remarks, followed by a question-and-answer period.

Date: Wednesday, June 12, 2024

Time: 10:00 a.m. Eastern time (7:00 a.m. Pacific time)

U.S. dial-in number: 1-877-451-6152

International number: 1-201-389-0879

Conference ID: 13746657

The conference call will broadcast live and be available for replay [here](#).

Persons interested in attending are required to call the conference telephone number approximately 10 minutes before the start time. An operator will register your name and organization. If you have any difficulty connecting with the conference call, please press *0.

A replay of the call will be available after 1:00 p.m. Eastern time on the same day through June 26, 2024.

Toll-free replay number: 1-844-512-2921

International replay number: 1-412-317-6671

Conference ID: 13746657

About Coda Octopus Group, Inc.

The Company, founded in 1994, is an established supplier to the Underwater/Subsea market. It supplies a range of hardware and software solutions to this market which includes key proprietary real time 4D/5D/6D imaging sonars, marketed under the name Echoscope® and Echoscope PIPE® addressing the underwater imaging sensor market along with new generation diving technology, Diver Augmented Vision Display (DAVD) system. The Company's Echoscope PIPE® sonar generates real-time 3D/4D/5D images of moving

objects underwater including in zero visibility water conditions. The Echoscope® technology is used globally for numerous applications in both the commercial offshore market and defense underwater markets. Applications for the Echoscope® technology include complex mapping underwater, subsea intervention, subsea asset placements, salvage and recovery, search and rescue, offshore renewables cable installations and surveys, marine construction, subsea infrastructure installation, mining applications, robotics (3D Perception and Depth), breakwater construction and monitoring, decommissioning, diving applications and port and harbor security.

The recently launched new generation of diving technology, DAVD, has the potential to change the way global diving operations are performed (both in the Defense and Commercial space) because it is a fully integrated singular system for topside control and fully connected diver HUD system, allowing both the topside and diver to share a range of critical information and visualize the same underwater scene. Furthermore, the DAVD integrates the Company's sonar technology, which allows dive operations to be performed in zero visibility conditions, a common problem that besets these operations.

The Company also includes two discrete Defense engineering businesses Coda Octopus Martech Ltd (UK based) and Coda Octopus Colmek, Inc. (US based) whose primary business model is to supply sub-assemblies into broader mission critical programs in the capacity of sub-contractors to the Prime Defense Contractors. Their scope of supply under these programs typically includes concept, design, prototype, manufacturing, and post-sale support. This gives them the opportunity to have repeat orders for these sub-assemblies through the life of these programs.

Forward Looking Statements

This press release contains forward-looking statements concerning Coda Octopus Group, Inc. within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. When used in this document, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions are intended to identify forward-looking statements. Those forward-looking statements include, without limitation, statements regarding the Company's expectations for the growth of the Company's operations and revenue. Such statements are subject to certain risks and uncertainties, and actual circumstances, events or results may differ materially from those projected in such forward-looking statements. Factors that could cause or contribute to differences include, but are not limited to, restrictions on our business operations due to the customer demand for our products and market prices; geopolitical factors which may limit or restrict demand for our products and/or services; the outcome of our ongoing research and development efforts relating to our products including our patented real time 3D solutions and our DAVD solution; our ability to develop the sales force required to achieve our development and other examples of forward looking statement set forth in our Annual Report on Form 10-K for the year ended October 31, 2023, filed with the Securities and Exchange Commission on January 29, 2024. Coda Octopus Group, Inc. does not undertake, and specifically disclaims any obligation to update or revise such statements to reflect new circumstances or

unanticipated events as they occur.
