

AerSale Reports Second Quarter 2024 Results

Second Quarter 2024 Highlights

- Revenue of \$77.1 million versus \$69.3 million in the prior year period.
- GAAP net loss of \$3.6 million versus GAAP net loss of \$2.7 million in the prior year period.
- Adjusted Net Loss of \$2.6 million versus Adjusted Net Loss of \$0.6 million in the prior year period.
- Adjusted EBITDA¹ of \$3.2 million versus \$(0.5) million in the prior year period.
- Flight equipment sales consisted of five engines and no aircraft compared to four engines and two unserviceable airframes in the prior year period.
- Feedstock acquisitions of \$36 million and additional \$71 million under contract as of June 30, 2024.
- Flight Equipment inventory of \$378.8 million as of June 30, 2024.

CORAL GABLES, Fla.--(BUSINESS WIRE)-- AerSale Corporation (Nasdaq: ASLE) (the "Company") today reported results for the second quarter ended June 30, 2024. The Company's revenue for the second quarter of 2024 was \$77.1 million compared to \$69.3 million in the second quarter of 2023. Revenue for the second quarter of 2024 included \$17.9 million of flight equipment sales compared to \$17.6 million of flight equipment sales in the prior-year period. Flight equipment sales in the second quarter of 2024 consisted of five engines compared to four engines and two unserviceable airframes in the prior year period. The increase in sales was primarily the result of higher volume of USM sold and strong MRO revenue amid a robust commercial backdrop. As a reminder to investors, the Company's revenues are likely to fluctuate from quarter-to-quarter and year-to-year based on flight equipment sales and therefore, progress should be monitored based on MRO activity, asset purchases and related sales.

Nick Finazzo, AerSale's Chief Executive Officer, commented, "Our results improved over the prior year driven by higher feedstock acquisitions over the past 18 months, continued demand in MRO and incremental volume of AerSafe[™]. We have also advanced on a set of initiatives to drive future growth and more consistently exceed our fixed cost hurdles. We have progressed on the multi-year expansion of both capacity and capabilities at our on and off-airport MRO facilities, which includes our new on-airport MRO in Millington, Tennessee, pneumatics capability at our Miami, Florida accessories shop, and tripling the size of our aerostructures shop also located in Miami. Our Millington on-airport MRO was completed in May and is presently serving our first airline customer. We expect both of our Miami

component MROs to be serving customers before year-end, at which time we anticipate a sharp rise in sales from these business units."

Finazzo added, "Beside our investment in new facilities, capacity and capabilities, we have continued to use our balance sheet to acquire feedstock to supply our asset management group, which will enhance our ability to generate investor returns through USM, leased equipment and whole asset sales."

Asset Management Solutions ("Asset Management") revenue increased to \$41.8 million during the second quarter of 2024 compared to \$37.1 million in the second quarter of 2023, primarily because of stronger USM sales as the Company monetizes feedstock acquired in the past 12-months. Used Serviceable Material ("USM") revenue increased 19.2% compared to the prior year quarter, while the Company had one additional engine on lease in 2024 compared to 2023. There were no aircraft on lease in either period.

TechOps revenue increased 9.4% to \$35.3 million in the second quarter of 2024 from \$32.3 million in the second quarter of 2023 primarily due to a continued strong demand for MRO services during the quarter specifically in AerSale's Roswell, New Mexico on-airport MRO facility, as well as higher revenue from component MROs. The company also benefitted from higher sales of its AerSafe[™] product, as operators begin upgrades in advance of 2026 compliance deadlines.

Gross margin was 28.2% versus 29.1% in the same period last year primarily due to lower margins at our component MROs as the team goes through an efficiency improvement curve on recently awarded contracts.

Selling, general and administrative expenses were \$23.6 million in the second quarter of 2024 versus \$27.1 million in the second quarter of 2023 primarily due to a reduction in payroll related expenses. AerSale incurred \$1.1 million of stock-based compensation expense in the second quarter of 2024, versus \$3.0 million in the second quarter of 2023.

Loss from operations was \$1.9 million in the second quarter of 2024 compared to \$7.0 million in the second quarter of 2023.

Income tax expense was \$0.5 million in the second quarter of 2024, compared to income tax benefit of \$2.4 million in the second quarter of 2023.

GAAP net loss for the second quarter of 2024 was \$3.6 million, compared to GAAP net loss of \$2.7 million in the prior year period. AerSale recognized a mark-to-market adjustment benefit of \$0.1 million related to the private warrant liability, \$1.1 million of stock-based compensation expenses within payroll expenses, and \$0.4 million in facility relocation costs during the second quarter of 2024. In the second quarter of 2023, the mark-to-market adjustment expense related to the private warrant liability was \$1.4 million, stock-based compensation expenses were \$3.0 million and relocations costs were \$0.3 million. Excluding these non-cash and unusual items adjusted for tax, Adjusted Net Loss was \$2.6 million in the second quarter of 2023.

Diluted loss per share was \$0.07 for the second quarter of 2024 and diluted loss per was \$0.08 in the second quarter of 2023. Adjusted for the non-cash and unusual items noted

above, adjusted diluted loss per share was \$0.05 for the second quarter of 2024, while adjusted diluted loss per share of \$0.03 in the second quarter of 2023.

Adjusted EBITDA in the second quarter of 2024 was \$3.2 million versus \$(0.5) million in the second quarter of 2023. Higher adjusted EBITDA was primarily due higher sales volume during the period and lower period costs.

AerSale ended the quarter with \$101.8 million of liquidity consisting of \$4.3 million of cash and available capacity of \$97.5 million on our \$180 million revolving credit facility, expandable to \$200 million. Cash used in operating activities was \$36.8 million, mainly due to continued investment in inventory.

Martin Garmendia, AerSale's Chief Financial Officer, said, "Our continued investment in feedstock has resulted in improvements being realized compared to the prior period. Based on available inventory balances and MRO capacity we have the tools needed to continue this upward momentum through the remainder of 2024. In addition, a strong liquidity position of over \$100 million available will enable us to continue to acquire properly priced feedstock, amid a constrained supply side environment that has resulted from reduced OEM deliveries."

Update on Engineered Solutions

The Company continues to progress forward with prospective customers while educating multiple aircraft operators on how its Enhanced Flight Vision System ("EFVS"), AerAware™, could capture significant safety and efficiency benefits after implementing the system in their fleets.

In December 2023, the Federal Aviation Administration ("FAA") issued AerSale a Supplemental Type Certificate ("STC") for "AerAware[™]", the Company's revolutionary Enhanced Flight Vision System ("EFVS") for the Boeing B737NG product line. This achievement marked the world's first commercial EFVS system to achieve a 50% visual advantage (over unaided natural vision) and the first large transport aircraft to be certified with a complete dual-pilot EFVS solution featuring a Head-Wearable Display. AerSale developed the AerAware[™] certification program under license with The Boeing Company, which included access to necessary technical services, maintenance, and engineering data.

Please see the link below to get a visual sense as to how AerAware's SkyLens Head Wearable Display enables pilots to benefit from significantly enhanced situational awareness, with full visual mobility for primary flight data and expansive, "eyes out" views of the enhanced 3D synthetic terrain: AerAware[™] (<u>AerAware Testimonial</u>).

Conference Call Information

The Company will host a conference call today, August 7, 2024, at 4:30 pm Eastern Time to discuss these results. A live webcast will also be available at <u>https://ir.aersale.com/news-events/events</u>. Participants may access the call at 1-877-300-8521, international callers may use 1-412-317-6026, and request to join the AerSale Corporation earnings call.

A telephonic replay will be available shortly after the conclusion of the call and until November 7, 2024. Participants may access the replay at 1-844-512-2921, international callers may use 1-412-317-6671, and enter access code 10190507. An archived replay of

the call will also be available on the Investors portion of the AerSale website at <u>https://ir.aersale.com/</u>.

Non-GAAP Financial Measures

This press release includes non-GAAP financial measures, including adjusted EBITDA, adjusted Net Income, and adjusted diluted Earnings per Share. AerSale defines adjusted EBITDA as net income (loss) after giving effect to interest expense, depreciation and amortization, income tax expense (benefit), and other non-recurring or unusual items. Adjusted Net Income is defined as net income (loss) after giving effect to mark-to-market adjustments relating to our Private Warrants, stock-based compensation expense and other non-recurring or unusual items. Adjusted diluted earnings per share also exclude these material non-recurring or unusual items.

AerSale believes these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to AerSale's financial condition and results of operations. AerSale's management uses certain of these non-GAAP measures to compare AerSale's performance to that of prior periods for trend analyses and for budgeting and planning purposes. These non- GAAP measures should not be construed as an alternative to net income or net income margin as an indicator of operating performance or as an alternative to cash flow from operating activities as a measure of liquidity (each as determined in accordance with GAAP).

You should review AerSale's financial statements, and not rely on any single financial measure to evaluate AerSale's business. Other companies may calculate adjusted EBITDA, Adjusted Net Income, or Adjusted diluted earnings per share differently, and therefore AerSale's adjusted EBITDA, adjusted Net Income, or adjusted diluted earnings per share measures may not be directly comparable to similarly titled measures of other companies.

Reconciliations of Net Income, the Company's closest GAAP measure, to adjusted EBITDA, Adjusted Net Income, and adjusted diluted earnings per share, are outlined in the tables below following the Company's condensed consolidated financial statements.

Forward Looking Statements

This press release includes "forward-looking statements". We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

All statements other than statements of historical facts contained in this press release may constitute forward-looking statements, and include, but are not limited to, statements regarding our anticipated financial performance, including anticipations regarding greater demand for AerSale's USM business; expectations regarding feedstock and commercial demand; expectations from letters of intent on an additional \$71 million in inventory during the year; our belief that we are well positioned to take advantage of the current market dynamic; our belief that we are well positioned to take advantage of asset availability; our growth trajectory; the expected operating capacity of our MRO facilities and demand for such services; expectation that AerAware[™] is a technology that will be broadly adopted and that sales of AerAware[™] will be a meaningful contributor to long-term performance; and expected benefits from an improving backdrop in commercial aerospace, and end markets; AerSale's actual results may differ from their expectations, estimates and projections and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as "expect," "estimate," "project," "budget," "forecast," "anticipate," "intend," "plan," "may," "will," "could," "should," "believes," "predicts," "potential," "continue," or the negative of these or other similar expressions are intended to identify such forwardlooking statements. The forward-looking statements in this press release are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. You should carefully consider the foregoing factors and the other risks and uncertainties described in the Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations sections of the Company's most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC"), and its other filings with the SEC, including its subsequent guarterly reports on Form 10-Q. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Moreover, we operate in an evolving environment. New risk factors and uncertainties may emerge from time to time, and it is not possible for management to predict all risk factors and uncertainties.

Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements and we qualify all of our forward-looking statements by these cautionary statements. Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.

About AerSale

AerSale serves airlines operating large jets manufactured by Boeing, Airbus and McDonnell Douglas and is dedicated to providing integrated aftermarket services and products designed to help aircraft owners and operators to realize significant savings in the operation, maintenance and monetization of their aircraft, engines, and components. AerSale's offerings include: Aircraft & Component MRO, Aircraft and Engine Sales and Leasing, Used Serviceable Material sales, and internally developed 'Engineered Solutions' to enhance aircraft performance and operating economics (e.g. AerSafe™, AerTrak™, and now AerAware™).
