Novelis Reports First Quarter Fiscal Year 2027 Results

Q1 Fiscal Year 2027 Highlights

- Net income attributable to our common shareholder of \$164 million, up 71% YoY. Net income attributable to our common shareholder, excluding special items, was \$265 million, up 128% YoY
- Adjusted EBITDA of \$516 million, up 24% YoY
- Rolled product shipments of 916 kilotonnes, down 5% YoY
- Adjusted EBITDA per tonne shipped of \$563, up 30% YoY
- Oswego hot mill resumed operations in early June

ATLANTA, August 5, 2026 – Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today reported results for the first quarter of fiscal year 2027.

"We are pleased to start the new fiscal year on a positive note, supported by strong execution, favorable market trends and continued demand for sustainable aluminum solutions," said Steve Fisher, president and CEO, Novelis Inc. "Momentum continues to build, buoyed by the successful restart of the Oswego hot mill in early June. At the same time, the initial commissioning of key assets at Bay Minette represents another important step in strengthening our operational capabilities and positioning Novelis for its next phase of growth."

First Quarter Fiscal Year 2027 Financial Highlights

Net sales for the first quarter of fiscal year 2027 increased 23% versus the prior year period to \$5.8 billion. The increase was primarily due to higher average aluminum prices, partially offset by a 5% decrease in total rolled product shipments to 916 kilotonnes, driven mainly by an estimated 33 kilotonne negative shipment impact related to the Oswego production disruption from the fires in fiscal year 2026.

Net income attributable to our common shareholder was \$164 million in the first quarter of fiscal year 2027, a 71% increase from the prior year period. The increase was due primarily to favorable metal price lag resulting from higher metal prices, partially offset by \$265 million in pre-tax net losses related to the Oswego fires. In addition, Adjusted EBITDA increased 24% year-over-year to \$516 million in the first quarter of fiscal year 2027, driven primarily by lower aluminum scrap prices and cost efficiencies, which were partially offset by higher net tariffs. The estimated impact from the Oswego fires in Adjusted EBITDA is an \$18 million benefit, as the favorable timing of insurance proceeds more than offset the estimated negative impact of production interruptions in the quarter. Net income attributable to our common shareholder, excluding special items, increased 128% year-over-year to \$265 million.

Net cash used in operating activities was an outflow of \$455 million in the first quarter of fiscal year 2027, compared to a net cash inflow of \$105 million in the prior year period, largely related to higher working capital from rising aluminum prices and impacts from the Oswego fires, net of insurance recoveries. Adjusted free cash flow was an outflow of \$1.1 billion in the current year period, compared to the prior year period outflow of \$295 million. The reduction in adjusted free cash flow is mainly driven by lower operating cash flow, as well as higher capital expenditures related to the Company's U.S. greenfield rolling and recycling plant in Bay Minette, Alabama, which has begun the commissioning process.

The Company had a net leverage ratio (Adjusted Net Debt / trailing twelve months (TTM) Adjusted EBITDA) of 4.5x at the end of the first quarter of fiscal year 2027. Total liquidity stood at \$2.1 billion as of June 30, 2026, consisting of \$1.1 billion in cash and cash equivalents and \$1.0 billion in availability under committed credit facilities.

“With Oswego back online and Bay Minette's commissioning process getting underway, we are confident in our expectation to return to positive free cash flow in the fourth quarter of this fiscal year,” said Dev Ahuja, executive vice president and CFO, Novelis Inc. “Supported by ongoing cost discipline, expected insurance recoveries, and the continued strength of the underlying business, we anticipate beginning to deleverage as capital spending normalizes following the Bay Minette startup.”

Update on Recovery at Oswego Plant

In September 2025, a fire broke out at the Novelis plant in Oswego, New York. In November 2025, a second significant fire occurred at the Oswego plant in a location where repair work from the September fire was taking place. Everyone working at the plant was safely evacuated and there were no injuries to employees, contractors or first responders during either event. Both fire events were contained to the hot mill area and did not impact the rest of the plant.

The Oswego hot mill restarted operations in early June, and production activities are ramping up to support pent-up demand and normalize shipments.

Non-GAAP Financial Measures

This news release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides, which can be found at novelis.com/investors. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Attached to this news release are tables showing the condensed consolidated statements of operations, condensed consolidated balance sheets, condensed consolidated statements of cash flows, reconciliation of Adjusted EBITDA, Adjusted EBITDA per Tonne, Adjusted Free Cash Flow, Net Leverage Ratio, Net Income attributable to our common shareholder excluding Special Items, and segment information.

Forward-Looking Statements

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking within the meaning of securities laws. Forward-looking statements include statements preceded by,

followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of forward-looking statements in this news release are: our confidence in a continued strong market and our ability to capture demand, the commissioning, startup timing, operational performance and expected benefits of the Bay Minette plant; anticipated insurance recoveries and the impacts of the Oswego fires, future shipments, and our expectations regarding future financial results, including related to our future free cash flow and our anticipation of potential deleveraging following the commissioning of the Bay Minette plant. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and Novelis' actual results could differ materially from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: disruptions or changes in the business or financial condition of our significant customers or the loss of their business or reduction in their requirements; impact of changes in trade policies, new tariffs, duties and other trade measures; price and other forms of competition from other aluminum rolled products producers and potential new market entrants; the competitiveness of our end-markets, and the willingness of our customer to accept substitutes for our products, including steel, plastics, composite materials and glass; our failure to realize the anticipated benefits of strategic investments; increases in the cost or volatility in the availability of primary aluminum, scrap aluminum, sheet ingot, or other raw materials used in the production of our products; risks related to the energy-intensive nature of our operations, including increases to energy costs or disruptions to our energy supplies; downturns in the automotive and ground transportation industries or changes in consumer demand; union disputes and other employee relations issues; the impact of labor disputes and strikes on our customers; loss of our key management and other personnel, or an inability to attract and retain such management and other personnel; unplanned disruptions at our operating facilities, including as a result of adverse weather phenomena, fires or other force majeure events; economic uncertainty, capital markets disruption and supply chain interruptions; unexpected impact of public health crises on our business, suppliers, and customers; risks relating to certain joint ventures, subsidiaries and assets that we do not entirely control; risks related to fluctuations in freight costs; risks related to rising inflation and prolonged periods of elevated interest rates; risks related to timing differences between the prices we pay under purchase contracts and metal prices we charge our customers; a deterioration of our financial condition, a downgrade of our ratings by a credit rating agency or other factors which could limit our ability to enter into, or increase our costs of, financing and hedging transactions; risk of rising debt service obligations related to variable rate indebtedness; adverse changes in currency exchange rates; our inability to transact in derivative instruments, or our inability to adequately hedge our exposure to price fluctuations under derivative instruments, or a failure of counterparties to our derivative instruments to honor their agreement; an adverse decline in the liability discount rate, lower-than-expected investment return on pension assets; impairments to our goodwill, other intangible assets, and other long-lived assets; tax expense, tax liabilities or tax compliance costs; risks related to the operating and financial restrictions imposed on us by the covenants in our credit facilities and the indentures governing our Senior Notes; cybersecurity attacks against, disruptions, failures or security breaches and other disruptions to our information technology networks and systems; risks of failing to comply with federal, state and foreign laws and regulations and industry standards relating to privacy, data protection, advertising and consumer protection; our inability to protect our intellectual property, the confidentiality of our know-how, trade secrets, technology, and other proprietary information; risks related to our global operations, including the impact of complex and stringent laws and government regulations; risks related to global climate change, including legal, regulatory or market responses to such change; risks related to a broad range of environmental, health and safety laws and regulations; and risks related to potential legal proceedings or investigations. The above list of factors is not exhaustive. Other important factors are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2026 and as the same may be updated from time to time in our quarterly reports on Form 10-Q, or in other reports which we from time to time file with the SEC.
