Axogen, Inc. to present at the Jefferies Virtual Healthcare Conference and the JMP Securities Life Sciences Conference

ALACHUA, Fla. and TAMPA, Fla., May 18, 2021 (GLOBE NEWSWIRE) -- Axogen, Inc. (NASDAQ: AXGN), a global leader in developing and marketing innovative surgical solutions for damage or discontinuity to peripheral nerves, today announced that Karen Zaderej, chairman, CEO, and president and Peter J. Mariani, executive vice president and CFO will present at two upcoming investor conferences.

Zaderej and Mariani will present at the Jefferies Virtual Healthcare Conference on Wednesday, June 2, 2021 at 11:30 a.m. ET.

They will present at the JMP Securities Life Sciences Conference on Wednesday, June 16, 2021 at 12:30 p.m. ET.

The presentations will be webcast live and can be accessed through the Investors page at www.axogeninc.com. For those not available to listen to the live broadcast, a replay will be archived for 90 days and available through the Investors page on www.axogeninc.com.

About Axogen

Axogen (AXGN) is the leading company focused specifically on the science, development, and commercialization of technologies for peripheral nerve regeneration and repair. Axogen employees are passionate about helping to restore peripheral nerve function and quality of life to patients with physical damage or transection to peripheral nerves by providing innovative, clinically proven, and economically effective repair solutions for surgeons and health care providers. Peripheral nerves provide the pathways for both motor and sensory signals throughout the body. Every day, people suffer traumatic injuries or undergo surgical procedures that impact the function of their peripheral nerves. Physical damage to a peripheral nerve, or the inability to properly reconnect peripheral nerves, can result in the loss of muscle or organ function, the loss of sensory feeling, or the initiation of pain.

Axogen's platform for peripheral nerve repair features a comprehensive portfolio of products, including Avance[®] Nerve Graft, a biologically active off-the-shelf processed human nerve allograft for bridging severed peripheral nerves without the comorbidities associated with a second surgical site; Axoguard Nerve Connector[®], a porcine submucosa extracellular matrix (ECM) coaptation aid for tensionless repair of severed peripheral nerves; Axoguard Nerve Protector[®], a porcine submucosa ECM product used to wrap and protect damaged peripheral nerves and reinforce the nerve reconstruction while preventing soft tissue attachments; Axoguard Nerve Cap[®], a porcine submucosa ECM product used to protect a

peripheral nerve end and separate the nerve from the surrounding environment to reduce the development of symptomatic or painful neuroma; and Avive® Soft Tissue Membrane, a processed human umbilical cord intended for surgical use as a resorbable soft tissue barrier. The Axogen portfolio of products is available in the United States, Canada, Germany, United Kingdom, Spain, South Korea, and several other countries.
