Phunware Engages ShareIntel to Monitor Trading Activity for PHUN

Leading Shareholder Intelligence Services to Capture Market Participants and Share Ownership Data to Monitor for Compliance with FINRA and SEC Regulations

AUSTIN, Texas--(BUSINESS WIRE)-- [Phunware, Inc. \(NASDAQ: PHUN\)](#) (the “Company”), a fully-integrated enterprise cloud platform for mobile that provides products, solutions, data and services for brands worldwide, today announced that it has engaged [ShareIntel - Shareholder Intelligence Services](#) to track market participants and analyze share ownership data in its publicly traded Common Stock (“PHUN”) on Nasdaq for FINRA and SEC market compliance.

“Leveraging ShareIntel’s patented processes and proprietary analytics, we can investigate reporting anomalies among market makers, banks, broker-dealers and clearing firms,” said [Matt Aune, Chief Financial Officer of Phunware](#). “In addition, we will also be able to track share ownership and identify any suspicious, aberrant and or unusual trading activity, continuing our commitment to protect our investors and maximize shareholder value.”

ShareIntel offers unprecedented access and insight into broker-dealer, clearing firm and shareholder position movement. ShareIntel utilizes a patented process called [DRIL-Down™](#) to aggregate and analyze repository data from reporting entities, broker-dealers and shareholders. This enables Phunware to proactively track shareholder ownership, identify parties to suspicious, aberrant or unusual trading activity and deploy corrective action steps to help curtail such activity.

“ShareIntel tracks and monitors critical broker-dealer and shareholder movements,” said [David Wenger, President and Chief Executive Officer of ShareIntel](#). “We look forward to helping Phunware identify parties to potential abusive short selling, implement action plans to mitigate such activity, help maximize shareholder ownership transparency and facilitate effective shareholder outreach.”

“We have a talented team and are working tirelessly on behalf of our customers, partners and shareholders,” said Aune. “We feel it is very important for our stakeholders that we capture all relevant data specific to the trading and settlement of our securities, so that we can ensure that those brokering and trading our stock are compliant with FINRA and SEC rules and regulations governing short selling. Our collaboration with ShareIntel will help us to identify and take appropriate action with regard to any bad actors manipulating our securities, harming our shareholders or otherwise inhibiting the appropriate trading and settlement of our securities.”
