Equinix Announces Pricing of \$1.25 Billion Public Offering of Senior Notes

REDWOOD CITY, Calif., Nov. 17, 2014 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), the global interconnection and data center company, today announced that it has priced an offering of \$750 million aggregate principal amount of its 5.375% senior notes due 2022 (the "2022 Notes") and \$500 million aggregate principal amount of its 5.750% senior notes due 2025 (the "2025 Notes," and, together with the 2022 Notes, the "Notes"), an increase in combined aggregate principal amount from the \$1 billion offering of notes previously announced. The offering is being made pursuant to an automatically effective shelf registration statement (including a preliminary prospectus supplement relating to the offering) on file with the Securities and Exchange Commission (the "SEC"). The offering is expected to close on November 20, 2014, subject to customary closing conditions.

The Notes will be Equinix's general senior obligations and will rank equal in right of payment to all of its existing and future senior indebtedness. Interest will be payable semi-annually at a rate of 5.375% per year for the 2022 Notes and 5.750 % per year for the 2025 Notes. The 2022 Notes will mature on January 1, 2022 and the 2025 Notes will mature on January 1, 2025. The Notes are redeemable by Equinix prior to maturity at a premium under certain circumstances.

The net proceeds to Equinix from this offering will be approximately \$1.233 billion after deducting underwriting discounts and estimated offering expenses payable by it. Equinix intends to use the net proceeds from this offering to redeem its outstanding 7.00% Senior Notes due 2021 pursuant to the redemption provisions of such notes and for general corporate purposes, which may include capital expenditures, distributions to its stockholders in connection with its proposed conversion to a real estate investment trust, working capital and potential acquisitions and strategic transactions.
