Crown Crafts, Inc. Reports Results for Fourth Quarter and Full Fiscal Year 2010

GONZALES, La., June 28, 2010 (GLOBE NEWSWIRE) --

- Strong fourth quarter leads Crown Crafts to a banner year
- Fourth quarter net sales increase by 6% to finish at \$86.1 million for full fiscal 2010
- Fourth quarter net income, excluding the goodwill impairment charge in fiscal 2009, increases by 15% from \$2.0 million in fiscal 2009 to \$2.3 million in fiscal 2010
- Fiscal 2010 Adjusted EBITDA increases to \$10.5 million, the highest amount since 1998

Crown Crafts, Inc. (the "Company") (Nasdaq:CRWS) today reported its results from operations for the fourth quarter and full fiscal year 2010, which ended March 28, 2010.

Results for Fourth Quarter and Full Fiscal Year 2010

The Company's net income for the fourth quarter of the fiscal year ended March 28, 2010 was \$2.3 million, or \$0.25 per diluted share, on net sales of \$26.0 million compared to net income of \$2.0 million, or \$0.21 per diluted share, on net sales of \$24.6 million in the fourth quarter of fiscal year 2009 (after excluding a \$12.6 million charge, net of tax, related to an impairment to goodwill). Including the goodwill impairment charge, the Company reported a net loss in the fourth quarter of fiscal year 2009 of \$10.6 million, or \$1.15 per diluted share.

The Company's net income for fiscal 2010 was \$4.8 million, or \$0.52 per diluted share, on net sales of \$86.1 million compared to net income for fiscal 2009 of \$4.5 million, or \$0.47 per diluted share, on net sales of \$87.4 million (after excluding a \$21.6 million charge, net of tax, related to an impairment to goodwill). Including the goodwill impairment charge, the Company reported a net loss for fiscal 2009 of \$17.1 million, or \$1.83 per diluted share.

"We are pleased with the strong finish that our fourth quarter 2010 earnings provided for our full year results," commented E. Randall Chestnut, Chairman, President and Chief Executive Officer of the Company. "Early in the year, we were challenged by economic conditions that impacted the retail sale of our products. As the year progressed, we made appropriate adjustments to our cost structure, which aided us in our rebound. Our consistent cash flow has enabled us to reduce our debt to \$5.2 million at year end, of which \$3.8 million is non-interest bearing. Our results have helped to raise our shareholders' equity by 23% in a difficult retail year. Finally, our Adjusted EBITDA (earnings before interest, taxes, depreciation, amortization and impairment charges) for 2010 was \$10.5 million, or 12.2% of net sales," Mr. Chestnut continued.

In addition to the Company's disclosure of its financial position and results of operations in conformity with accounting principles generally accepted in the United States (GAAP), the Company has also disclosed certain measures of its performance which are not determined in accordance with GAAP. These non-GAAP financial measures include Adjusted EBITDA and the Company's discussion of its fiscal 2009 results excluding the goodwill impairment charge. The Company uses these non-GAAP financial measures internally to monitor the Company's operating results and cash flow and to evaluate the performance of its businesses. The Company believes that the non-GAAP financial measures are useful in that they are important indicators of the Company's ability to generate cash sufficient to reduce debt, make strategic acquisitions and investments in capital expenditures, pay dividends, meet working capital requirements and otherwise meet its obligations as they become due. The items excluded to calculate non-GAAP financial measures are significant components in understanding and assessing the Company's financial performance. The non-GAAP financial measures are provided as supplemental information and should be considered in addition to, and not as a substitute for, such GAAP measures as net income or loss, cash flow provided by or used in operating, investing or financing activities, and other measures of financial performance

and liquidity reported in accordance with GAAP. Because non-GAAP financial measures, by definition, are not determined in accordance with GAAP, companies are free to calculate them in varying ways. Therefore, the non-GAAP financial measures presented by the Company may not be comparable to similarly titled measures of other companies.
