Abeona Therapeutics Set to Join Russell Global, Russell 3000(R) and Russell MicroCap(R) Indexes

NEW YORK, NY -- (Marketwired) -- 06/22/15 --

- Abeona Therapeutics begins trading today under ticker symbol ABEO
- Company to ring NASDAQ closing bell today at 4:00 pm ET

Abeona Therapeutics, Inc. (NASDAQ: ABEO), a biopharmaceutical company focused on developing and delivering gene therapy and plasma-based products for severe and life-threatening rare diseases, today announced it is set to join the broad-market Russell Global, Russell 3000® and Russell MicroCap® Indexes at the conclusion of the Russell Indexes' annual reconstitution on June 26, 2015, according to a preliminary list of additions posted on www.russell.com. Annual Russell Indexes' reconstitution captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization. Abeona's membership in the Russell Indexes is expected to remain in place for at least one year.

"Inclusion in the Russell Indexes marks a significant milestone in the development and growth of our company," stated Steven Rouhandeh, Executive Chairman. "As we continue to build a gene therapy leader in rare diseases, we believe our membership will be helpful for raising our profile in the financial community, improving liquidity and expanding out shareholder and stakeholder base."

Abeona Therapeutics recently effectuated a name change to better reflect its broader rare disease commitment. The Company's common stock will begin trading on NASDAQ today under the ticker symbol ABEO. Additionally, Abeona Therapeutics will ring the Nasdaq Stock market closing bell today at 4:00 pm ET. Live streaming can be found at: <https://new.livestream.com/nasdaq/live>.

About FTSE Russell: FTSE Russell is a global index leader that provides innovative benchmarking, analytics and data solutions for investors worldwide. FTSE Russell calculates thousands of indexes that measure and benchmark markets and asset classes in more than 80 countries, covering 98% of the investable market globally and trading on over 25 exchanges worldwide.

FTSE Russell is also focused on index innovation and client collaboration as it seeks to enhance the breadth, depth and reach of its offering.

FTSE Russell is wholly owned by London Stock Exchange Group. For more information, visit www.ftserussell.com.

About Abeona: Abeona Therapeutics (pronounced ey-bee-ohn-uh) is focused on developing and delivering gene therapy and plasma-based products for severe and life-threatening rare diseases. Abeona's lead program is an adeno-associated virus (AAV)-based gene therapy for Sanfilippo syndrome (MPS IIIA and IIIB) in collaboration with patient advocate groups, researchers and clinicians. Clinical trials for Sanfilippo types A and B are anticipated to begin in 2015. The Company recently licensed an AAV-based gene therapy program in juvenile Batten disease (JBD) from the University of Nebraska Medical Center; and licensed an AAV-based gene therapy program for Fanconi anemia (FA) disorder and other rare blood diseases using CRISPR/Cas9 gene editing from the University of Minnesota. In addition, the company is pursuing two additional proprietary platforms, Salt Diafiltration (SDF™) Process and Polymer Hydrogel Technology (PHT™), and is active in the development and commercialization of human plasma-derived therapeutics, including its proprietary alpha-1 protease inhibitor, SDF Alpha™.
