Jim Cacioppo, Chairman and Chief Executive Officer of Jushi, commented, “2019 was an extraordinarily productive year for the Company. We completed our going public transaction, successfully closed on, are under definitive agreements to acquire, or are in the process of building out several high-quality assets in Pennsylvania, Illinois, Virginia, California, Nevada, and Ohio. For example, in Pennsylvania, we opened four medical dispensaries in the second half of 2019, bringing our total store count to six and expect to open an additional nine stores within the next twelve months. We expect to operate a total of 15 stores in Pennsylvania or 10 percent of the current overall market. In addition to the significant progress we made in our operations, we successfully raised \$165 million through December 31, 2019, and an additional \$20 million in January 2020. We are very pleased to end the year with a strong balance sheet (Pro forma for financing, cash and marketable securities were approximately \$70 million as of December 31, 2019) and sufficient liquidity to fund growth.”

“In 2020, we remain focused on building out our high-quality footprint and pursuing attractive acquisition opportunities across the cannabinoid supply chain. We started the year very strong, acquiring two medical dispensaries in Illinois that come with an option to open up two additional dispensaries. Our dispensary in Sauget, IL (adjacent to East St. Louis) launched adult-use sales on March 2nd, and our dispensary in Normal, IL (Bloomington-Normal metropolitan area) is expected to transition to adult-use sales on May 11th. We expect to open the two additional adult-use dispensaries in Illinois by year-end.”

“We were also very excited to announce that with the enactment of Virginia Senate Bill 976 in April, we anticipate adding up to five additional Beyond/Hello branded medical dispensaries in Virginia via our majority-owned subsidiary Dalitso LLC. Dalitso’s Northern Virginia (“NOVA”) provisional license is to operate in Health Service Area II, home to two of the Commonwealth’s most densely populated and highest-income counties, Fairfax and Prince William County. The Health Service Area II license in NOVA will be a vertical license with the ability to cultivate, process, and dispense from six dispensaries, along with a delivery capability. Very importantly THC caps were also lifted as part of Bill 976.”

“For the first quarter of 2020, revenue increased 43 percent to \$8.6 million sequentially. As of March 2020, we are on an annualized revenue run-rate of approximately \$50 million. We believe our strong momentum, enviable footprint, and solid balance sheet positions the Company well to execute on its current plans and drive long-term shareholder value through 2020 and beyond,” concluded Mr. Cacioppo.

Financial Results for the Fourth Quarter Ended December 31, 2019

The following is a tabular summary and commentary of revenue, gross profit, net income (loss) and net income (loss) per share for the three-month periods ended December 31, 2019 and September 30, 2019.

	Quarter Ended December 31, 2019	Quarter Ended September 30, 2019	% change
Revenue	\$ 6,034,038	\$ 3,588,233	68 %
Gross profit	\$ 2,679,894	\$ 1,548,199	73 %
Net (loss) income	\$ (17,129,597)	\$ 4,156,317	
Net (loss) income per share – basic	\$ (0.18)	\$ 0.05	
Net (loss) income per share - diluted	\$ (0.18)	\$ 0.04	

Revenue for the fourth quarter of 2019 increased 68 percent to \$6.0 million, compared to \$3.6 million in the third quarter of 2019. The 68 percent increase in revenue was driven by the addition of three new stores in Pennsylvania that began to ramp up in the fourth quarter of 2019.

Gross profit for the fourth quarter of 2019 was \$2.7 million, resulting in a gross margin of 44 percent, compared to \$1.5 million for the third quarter of 2019. The increase in gross profit over the prior quarter was primarily due to an increase in retail sales.

Net loss for the fourth quarter of 2019 was (\$17.1) million, or (\$0.18) per diluted share, compared to a net income of \$4.2 million, or \$0.04 per diluted share, in the third quarter of 2019. The sequential decline in net income was primarily due to a write-off of pre-acquisition expense of \$4.0 million in the fourth quarter, and a gain on a financial asset of approximately \$9.2 million and one-time other income of approximately \$5 million in the third quarter of 2019.

Adjusted EBITDA (Loss) for the fourth quarter of 2019 was (\$5.2) million, compared to \$(3.2) million in fourth quarter of 2018.

Financial Results for the Full Year Ended December 31, 2019

The following is a tabular summary and commentary of revenue, gross profit, net income (loss) and net income (loss) per share for the twelve-month period ended December 31, 2019 and the period from January 23, 2018 (inception date) to December 31, 2018.

	Year Ended December 31, 2019	Period from January 23, 2018 (inception date) to December 31, 2018	% change
Revenue	\$ 10,229,350	\$ 523,364	1855 %
Gross profit	\$ 4,822,737	\$ 523,364	821 %
Net (loss) income	\$ (30,770,938)	\$ (18,055,976)	
Net (loss) income per share – basic	\$ (0.37)	\$ (0.42)	
Net (loss) income per share - diluted	\$ (0.37)	\$ (0.42)	

Revenue for the full year 2019 was \$10.2 million, compared to \$0.5 million for the full year 2018. The increase in revenue was due primarily to the commencement of retail operations in Pennsylvania, cultivation and manufacturing in Nevada, and retail and e-commerce operations in New York.

Gross profit for the full year 2019 was \$4.8 million, resulting in a gross margin of 47 percent. The increase over the prior year was due to an increase in retail sales.

Net income (loss) for the full year 2019 was (\$30.8) million, or (\$0.37) per diluted share, compared to a net loss of (\$18.1) million, or (\$0.42) per share, in 2018.

Adjusted EBITDA (Loss) for the full year 2019 was (\$11.2) million, compared to \$(7.0) million for full year 2018.

Balance Sheet and Liquidity

As of December 31, 2019, the Company had \$38.9 million of cash and cash equivalents, and \$12.3 million in investments in securities. Total current assets of \$64.5 million and current liabilities of \$33.9 million as of December 31, 2019. The Company therefore had net working capital of \$30.6 million at the end of 2019.

Operations Update

Pennsylvania: In July 2019, Jushi acquired four permits allowing for 12 medical marijuana dispensaries in Pennsylvania and is currently operating a total of six medical dispensaries under the Beyond/Hello brand. The Company expects to open its seventh location in Ardmore, PA, in the second quarter. The six open dispensaries are in West Chester, Bristol, Johnstown, Philadelphia (Center City and Northern Liberties), and Scranton.

In September 2019, the Company signed a definitive agreement to acquire 80 percent of another Pennsylvania dispensary permittee, which would take the Company's subsidiary-held dispensary count from 12 to 15, the current maximum number of dispensaries that can be held by one company or its affiliates in Pennsylvania. The Company's purchase is subject to customary closing conditions, including regulatory approvals.

Illinois: In the first quarter of 2020, Jushi became the 100 percent owner of two Illinois medical cannabis dispensaries located in Sauget (adjacent to East St. Louis) and Normal (Bloomington-Normal metro area). Since acquiring the two dispensaries, both locations have been re-branded to Beyond/Hello, and the Sauget dispensary began adult-use sales in March 2020. The Normal dispensary was approved for adult-use sales in March 2020 and is expected to begin adult-use sales on May 11th. Each dispensary is also eligible to seek approval from the IDFPR to open a second retail location, and Jushi plans to exercise both of these options and have four adult-use stores operating by the end of 2020.

Virginia: In September 2019, Jushi acquired the majority membership interests in Dalitso, a Virginia-based pharmaceutical processor for medical cannabis extracts. The permit holder is one of only five applicants to have received conditional approval for a pharmaceutical processor permit issued by the Virginia Board of Pharmacy. The designated area for the permit holder to operate is Health Service Area II, in NOVA. Also, with the enactment of Senate Bill 976 in April 2020, the Company anticipates adding up to five additional cannabis dispensing facilities to its operations in Virginia to bring the total to six dispensaries with a capability for home deliveries. These six cannabis dispensing facilities will be in addition to the pharmaceutical processor facility near the City of Manassas, which will also allow the Company to cultivate, process and deliver medical cannabis to registered patients in Virginia. Senate Bill 976 will also remove the statutory five percent cap on the concentration of THC within a cannabis oil formulation and expand the definition of products a patient can possess.

California: Jushi, through its subsidiary, anticipates owning and operating a store in Santa Barbara in the second half of 2020, subject to the closing of a related acquisition agreement. Moreover, a subsidiary of the Company also received approval to move forward in the merit-based application process as one of three selected applicants for a storefront retail (and ancillary delivery) permit in Culver City, California.

The Company has terminated the transaction to acquire the Malibu dispensary pursuant to the terms of the definitive agreement. The Company also notified the sellers of the San Diego dispensary, that they are in breach of the pending definitive agreement and have until May 8, 2020 to cure the breaches or the Company may terminate the agreement. The Company will continue to pursue alternative retail opportunities in specific limited license markets, particularly in jurisdictions with high barriers of entry, limited market participants, and a firm handle on the local black market.

Jushi Europe: In February 2020, Jushi expanded internationally with the formation of Jushi Europe. Jushi Europe plans to build out its European business through a combination of strategic acquisitions, partnerships, and license applications, focused on supplying the highest-quality medical cannabis products to patients throughout Europe.

The Company's MD&A and consolidated financial statements for the fourth quarter and financial year ended December 31, 2019, along with all previous public filings of the Company, may be found on SEDAR at www.SEDAR.com.

COVID-19 Update and Outlook

The uncertainty of today's environment amidst the COVID-19 crisis has caused delays in the Company's plans to expand its footprint in key operating markets. Specifically, regulatory and construction delays on current underway projects in Pennsylvania, California, Virginia and Ohio may impact the timing as to when these new dispensaries and facilities become operational. Additionally, Jushi has prioritized the health and safety of its patients, customers and employees, by limiting store hours to medical patients and those most susceptible to the virus. The Company has delayed the previously scheduled roll-out adult-use sales at its Illinois location in Bloomington-Normal metro area by several weeks, and now expects the dispensary to transition to adult-use sales on May 11th. The Company will continue to carefully monitor the impact of these developments in the coming weeks and months and will reevaluate its plans as the situation evolves.

Through continued investment in and development of the markets in which we operate, including the closing of acquisitions, Jushi remains positioned to achieve \$200 to \$250 million in pro forma revenue in 2021.

Non-IFRS Financial Measures

EBITDA and Adjusted EBITDA are financial measures that are not defined under IFRS. We define EBITDA as net income (loss), or "earnings", before interest, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA before: (i) fair value adjustments on biological assets and fair value adjustments on sale of inventory; (ii) share-based compensation expense; (iii) RTO listing expense; and (iv) goodwill impairment losses. We believe Adjusted EBITDA is a useful measure to assess the performance of the Company as it provides more meaningful operating results by excluding the effects of expenses that are not reflective of our operating business performance and other one-time or non-recurring expenses, and also provide additional perspective and insights when analyzing the core operating performance of the business. These supplemental non-IFRS financial measures should not be considered superior to, as a substitute for or as an alternative to, and should only be considered in conjunction with, the IFRS financial measures presented herein.
