MLI Market Capitalization (dollars in millions)

MUELLER / P.2

TO OUR STOCKHOLDERS, CUSTOMERS AND EMPLOYEES

Mueller's results for 2004 exceeded our corporate plan, principally due to an improvement in our largest business, copper tube. Net income in 2004 was \$79.4 million, 75 percent more than in the prior year. Earnings per diluted share were \$2.15 for 2004 compared with \$1.23 for 2003.

Net sales in 2004 totaled \$1.38 billion, which was 38 percent higher than the year before. The increase in sales was largely due to the remarkable rise in the price of copper, our principal raw material. The average price of copper in 2004 was 59 percent higher than in 2003. Mueller endeavors to pass on to its customers the fluctuating price of copper, and in 2004 we were successful in doing so. Pounds of product shipped in 2004 totaled 735 million pounds compared with 696 million pounds in 2003.

Mueller Commences Paying a Regular Dividend and Pays a Special Dividend

Early in 2004, our Board of Directors declared our first regular quarterly dividend of ten cents per share. The first quarterly dividend was paid on March 15, 2004.

In addition, later in the year, the Board authorized the payment of a Special Dividend of \$15.00 per share. This was paid on October 26, 2004, in the form of \$6.50 per share in cash and \$8.50 per share in a 10 year Debenture bearing interest at six percent per annum. The effect of the Special Dividend was to restructure our balance sheet, thereby reducing stockholder equity, while providing an opportunity for a much improved return on investment. We anticipated that

the Special Dividend would result in a substantial enhancement of stockholder value and, as of this writing, that has occurred.

Mueller Financial Position is Excellent

Our restructured balance sheet remains strong. Our current ratio is 2.5 to 1, and our working capital is \$275 million.

Nearly all our debt consists of the Debentures we issued last October to our shareholders. The Debentures, by their terms, are due in ten years and are subordinated to bank borrowings and other designated senior indebtedness. Currently we have access to \$150 million of bank borrowings through a credit facility with a syndicate of commercial banks. In addition, we expect to continue to generate a strong cash flow in 2005 as we did in 2004.

Standard Products

Our operating results improved on the strength of higher margins, particularly on copper tube and fittings in the first half of 2004; both volume and margins weakened somewhat during the second half. European operations were also solidly profitable. Overall plastic fittings produced strong results despite less than desirable margins in the pressure plastic lines.

Subsequent to year-end, we negotiated a renewal of our union labor agreement at our Fulton, Mississippi, copper tube operation. Through cooperation to address work rules and health benefit costs, we have taken an important step forward in mitigating rising health benefit costs that threaten our

competitive position. In our ever increasingly competitive global economy, our primary objective is to be a low cost source of the products we manufacture or sell.

Our B&K operation enjoyed another good year. The B&K line of imported plumbing specialties complements our product line of manufactured goods offering our customers one of the broadest lines in the market.

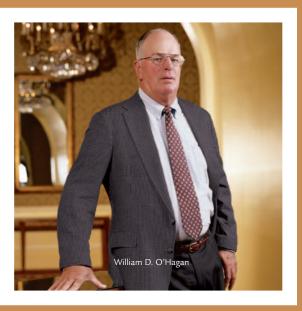

During the year we undertook a review of our distribution network. Consequently, we restructured our distribution centers to achieve focus on customer channels and increase our presence on the West Coast. By doing so, we hope to improve customer service while reducing our finished goods inventory requirements by increasing throughput.

Industrial Products

As both volumes and spreads increased modestly, our Brass Rod business posted improved results in 2004. Although domestic consumption of brass rod increased over 2003, it remains well below the peak levels of 2000. Profitability improvements will be challenging in this environment.

Our Forgings, Impacts, and Micro-Gauge businesses posted good results and continue to have new opportunities in a variety of markets and materials. Gas Products had its best year as we increased volume while a key competitor struggled to maintain its customer service. We are working to solidify new customer relationships for long-term mutual advantage.

Acquisitions in 2004

We completed two acquisitions in the latter part of 2004. In August, we acquired Vemco Brasscapri Limited (Vemco) an import distributor of plumbing products with operations located in the UK. In December, we purchased a group of companies (Mueller Comercial) that manufacture steel pipe nipples and also operate an import distribution business in Mexico. These acquisitions broaden our product lines and increase opportunities to sell our manufactured products to the customer base of these operations.

Business Outlook for 2005

The housing and construction markets are positioned to have another solid year in 2005. The fundamentals underlying these markets are encouraging. Mortgage rates are historically low, the demand for new and existing homes continues to be vibrant, there is a modest inventory of new

homes available for sale (4.1 months supply), job growth over the past 12 months was the best in five years, and household income continues to rise. Moreover, non-residential building construction is likely to accelerate in 2005 as capital projects continue to be funded.

On the other hand, the Federal Reserve is clearly in the process of monetary tightening, which will eventually cause mortgage rates to increase. In addition, rapidly escalating home prices will at some point engender buyer resistance.

Evaluating these contrary trends is difficult at best, however, on balance we believe 2005 will be another good year for Mueller.

Mr. Alexander Federbush recently joined our Board as our seventh Director. Mr. Federbush is a businessman with broad experience in the real estate area. His independence and experience will further strengthen our corporate governance.

In closing, we extend our thanks and appreciation to our talented and dedicated employees. Our achievements are due to their efforts.

Sincerely,

Henry J. Hayo

Harvey L. Karp Chairman of the Board

William D. O'Hagan
President and Chief Executive Officer
