

# Mueller Industries, Inc. Reports Third Quarter 2020 Earnings

COLLIERVILLE, Tenn.--(BUSINESS WIRE)-- Mueller Industries, Inc. (NYSE: MLI) announced third quarter operating income of \$69.2 million, compared with \$46.3 million for the prior year period.

Net income for the period was \$42.7 million, or 76 cents per diluted share, compared to net income of \$29.1 million, or 52 cents per diluted share in 2019. Net sales were \$619.1 million, compared with \$608.6 million in the third quarter of 2019.

Third Quarter Financial and Operating Highlights:

- COMEX copper averaged \$2.94 per pound, 12 percent higher than the prior year period.
- The \$10.5 million increase in quarter-over-quarter sales was due to \$15.2 million from higher selling prices associated with the rise in copper and \$24.2 million of sales from recently acquired businesses. These increases were largely offset by lower volumes, particularly in our core businesses, which have not fully recovered from the impacts of the COVID-19 pandemic.
- We recorded a \$5.5 million loss on our investment in Tecumseh Products Company, compared to the \$1.9 million loss recorded during the prior year period. Included in the \$5.5 million loss was \$1.2 million of pre-tax restructuring charges and \$0.8 million in foreign currency losses.
- The effective tax rate for the quarter was 24 percent, a more normal rate, compared with 19 percent in the prior year period.
- We generated an additional \$54.1 million in cash from operations for the quarter, totaling \$196.9 million year-to-date. At the end of the quarter cash on hand was \$113.6 million, with only \$55.0 million drawn on our credit facility.
- During the quarter, we funded the purchase of certain assets of Wieland-Kessler, LLC for \$57.2 million.
- Our current ratio remains at 2.9 to 1 and our debt to total capitalization remains low at 32 percent.

Regarding the outlook, CEO Greg Christopher said, "Amidst the unprecedented challenges posed by the COVID-19 pandemic, to have achieved these results is certainly gratifying.

"The US economy appears to be rebounding, but it is not yet back to the strong prepandemic levels. Acquisitions and capital investments in our manufacturing operations are paying off, and should continue to support strong cash generation and our strategic growth initiatives as global economies reopen and regain their strength."

Mueller Industries, Inc. is an industrial manufacturer that specializes in copper and copper alloy manufacturing while also producing goods made from aluminum, steel, and plastics. It

is headquartered in Collierville, Tennessee and comprises a network of operations in the United States, Canada, Mexico, Great Britain, South Korea, the Middle East, and China. Its products include tubing, fittings, valves, vessels, and related items for plumbing and HVACR related piping systems, as well as rod, forgings, extrusions, and various components for OEM applications. Products are distributed into sectors such as building construction, appliance, defense, energy, and automotive.
