# **Apollo Global Management and Affiliates Continue to Grow Direct Origination Platform**

## **New Account Brings Commitments Under Management for Middle Market Loans at Apollo and Affiliates to More than \$20 billion**

NEW YORK, July 18, 2019 (GLOBE NEWSWIRE) -- Apollo Global Management, LLC (together with its consolidated subsidiaries, "Apollo") (NYSE:APO) today announced that Apollo's Direct Origination Platform, in partnership with MidCap Financial, the Apollo-managed flagship direct origination vehicle, closed on the commitment of a large new middle market loan account, bringing the Platform's total committed capital through separate accounts managed by Apollo and MidCap Financial to \$3.5 billion.

The addition of the new account, when combined with capacity from a variety of other Apollo managed vehicles, including Apollo Investment Corporation (NASDAQ: AINV), brings the total amount of capital available to the Direct Origination Platform for middle market lending to more than \$8 billion. This \$8 billion of capital augments the significant capacity of MidCap Financial, which currently has \$12 billion in commitments on its balance sheet with significant room for growth.

"While large amounts of capital are being raised in the private credit sector overall, Apollo is able to differentiate itself from other lenders given its scale, broad product offering, depth of sponsor relationships and experience as a successful manager," said Howard Widra, Apollo's Global Head of Direct Origination. "The core team of investment professionals at Apollo and MidCap Financial have been working together for more than 17 years and today manages more than \$20 billion in middle market lending commitments across eight distinct products in a variety of proprietary niches. We anticipate further growth as more institutional investors embrace Apollo's innovative approach and unique value proposition."
