MACDERMID ENTHONE INDUSTRIAL SOLUTIONS APPOINTS JONATHAN TIMMS AS DIRECTOR OF SUSTAINABLE EXCELLENCE

(Waterbury, CT USA) - MacDermid Enthone Industrial Solutions announced that Jonathan Timms has been promoted to director of Sustainable Excellence. With more than 30 years in the surface finishing industry, Jonathan has extensive experience and brings broad expertise and knowledge to the role. Jonathan's three-decade long career in the industry has seen him hold various positions in a diverse range of technical, marketing and business management roles including time in surface finishing plant design and manufacture, most recently holding the position of director of marketing and strategic accounts in Asia.

In his new role, Jonathan will work as part of the product marketing team and will develop and drive the strategy of the Sustainable Excellence program, implementing this into the MacDermid Enthone Industrial Solutions organization. Jonathan's skills, leadership and experience will be critical to reach MacDermid Enthone's goal to become the leader in sustainability in our chosen markets and end user applications.

Jonathan will work globally to understand the different regional challenges and implement the necessary activities and processes needed to meet the environmental and sustainable demands in each of the regions.
