

Weekly IR Round-Up

Happening Now - Showcasing Perimeter at #ASBrS24!

We hosted a great opening reception at [2024 American Society of Breast Surgeons Annual Meeting](#) and are thrilled to be here alongside close to 1700 attendees, including elite surgeons and industry innovators.

Many of these top surgeons are visiting our booth to discover how OCT could [help them visualize margins with more clarity](#) and equip them with insights to make patient-specific, targeted decisions at the point of care. Click play below to see us in action!

Upcoming Webinar Event

Coming soon - stay tuned for a new webinar focused on trends in Artificial Intelligence (AI) and learn more about innovations in the healthcare space!

You can also sign up to get Perimeter [news release alerts](#) delivered directly to your email or check out the news feed on our [investor website](#).

Perimeter S-Series OCT has 510(k) clearance under a general indication and has not been evaluated by the U.S. FDA specifically for use in breast tissue, breast cancer, other types of cancer, margin evaluation, and reducing re-excision rates. The safety and effectiveness of these uses has not been established. For more information, please visit www.perimetermed.com/disclosures.
