

# PERIMETER

Imaging Like You've Never Seen Before

## Weekly IR Round-Up

### #ICYMI - In Case You Missed It!

**"Our commercial team is seeing growing market traction as they work to establish Perimeter S-Series OCT as a preferred technology for margin visualization in the OR.**

We successfully completed three S-Series placements year to date, including two additional previously unannounced placements, one within a current national healthcare network customer and one within a new healthcare network, showing our ability to expand our customer footprint. We fielded substantial interest from our demos and interactions at the recent ASBrS conference.

In addition, we are seeing the power of peer-based recommendations, as current surgeon champions, who are already using Perimeter's technology in their operating rooms, are referring their colleagues to our sales team."

*Adrian Mendes, Perimeter's Chief Executive Officer*

If you were unable to dial-into the live call, you can access the replay - along with links to the other quarterly materials - [on our website here](#).

## The Patient Journey

At Perimeter, we aim to ensure that no patient has to go through the emotional and physical trauma of a second surgery due to cancer left behind.

*Listen to Suzanne describe her cancer journey and realization that "time" is like a currency - and how we spend it is incredibly important.*
