HeartBeam to Host Fourth Quarter Full Year 2025 Results Conference Call on Thursday, March 12, 2026 at 4:30 p.m. Eastern Time

SANTA CLARA, Calif.--(BUSINESS WIRE)-- [HeartBeam, Inc.](#) (NASDAQ: BEAT), a medical technology company focused on transforming cardiac care by providing powerful cardiac insights, will hold a conference call on Thursday, March 12, 2026 at 4:30 p.m. Eastern time to discuss its results for the fourth quarter and full year ended December 31, 2025, and will be providing updates on its key strategic growth initiatives, specifically the limited commercial launch and significant developments on the 12-lead ECG extended wear patch. A press release detailing these results will be issued prior to the call.

HeartBeam CEO Robert Eno and CFO Timothy Cruickshank will host the conference call, followed by a question-and-answer period. They will be joined on the call by HeartBeam's recently appointed Chief Commercial Officer, Bryan Humbarger.

The conference call will be accompanied by a presentation and short video, which can be viewed during the webcast or accessed following the call via the investor relations section of the Company's website [here](#).

To access the call, please use the following information:

Date: Thursday, March 12, 2026
Time: 4:30 p.m. Eastern time (1:30 p.m. Pacific time)
Dial-in: 1-844-826-3035

Conference Code: 10206235
Webcast: https://viaid.webcasts.com/starthere.jsp?ei=1750485&tp_key=429593a446

A telephone replay will be available approximately three hours after the call and will run through March 26, 2026, by dialing 1-844-512-2921 from the U.S., or 1-412-317-6671 from international locations, and entering replay pin number: 10206235. The replay can also be viewed through the webcast link above and the presentation utilized during the call will be available in the Company's investor relations section [here](#).

About HeartBeam, Inc.

HeartBeam, Inc. (NASDAQ: BEAT) is a medical technology company dedicated to transforming the detection and monitoring of critical cardiac conditions. The Company is creating the first-ever cable-free device capable of collecting ECG signals in 3D, from three non-coplanar directions, and synthesizing the signals into a 12-lead ECG. This platform technology is designed for portable devices that can be used wherever the patient is to deliver actionable heart intelligence. Physicians will be able to identify cardiac health trends

and acute conditions and direct patients to the appropriate care – all outside of a medical facility, thus redefining the future of cardiac health management. HeartBeam received FDA clearance for arrhythmia assessment for its 3D ECG technology in December 2024 and for its 12-Lead ECG synthesis software in December 2025¹. The Company holds over 20 issued patents related to technology enablement. For additional information, visit [HeartBeam.com](https://www.heartbeam.com).

¹Cleared Indications for Use

The HeartBeam System with 12-Lead ECG synthesis software for arrhythmia assessment received FDA clearance in December 2025. Refer to the Company's Cleared Indications for Use at <https://www.heartbeam.com/indications> for details on the intended use of its technology.
