New USANA Magnesium Supplement Receives Seal of Approval from Third Party Assessor

USANA® MagneCal D™ added to list of company's approved supplements

SALT LAKE CITY, June 12, 2017 /PRNewswire/ -- Whenever USANA develops a new product, they take every measure to ensure that product will be free of impurities and contain all the necessary ingredients to make it a safe and effective product. **USANA® MagneCal D™** was no exception. USANA MagneCal D was launched this past March and is an all-encompassing bone-health supplement that combines optimal amounts of magnesium, calcium and vitamin D to help individuals maintain a strong, healthy body.*

To learn more about the USANA MagneCal D supplement, please visit usana.com.

"USANA MagneCal D is our newest product, and having it immediately be given a seal of approval is a great accomplishment," said Dan Macuga, USANA's chief marketing and communications officer. "So many different teams at USANA worked very hard in creating a unique and effective magnesium supplement. We are happy to add it to our growing list of tested and approved products."

ConsumerLab.com is an independent tester of the quality, purity and label accuracy of health and wellness products, putting each item through strict testing. To be awarded a seal of approval from ConsumerLab.com, USANA MagneCal D had to contain 100 percent of the

claimed amount of magnesium, did not exceed contamination for lead, cadmium and arsenic, and disintegrate within the appropriate amount of time.

"We found people were consuming plenty of calcium, but were getting less than the recommended amounts of magnesium and vitamin D. This gave us the unique opportunity to formulate a supplement to help balance out the body's levels," said Dr. John Cuomo, USANA's executive director of global research and development. "We're excited to give consumers a healthy combination of calcium, magnesium and vitamin D to not only maintain strong, healthy bones and teeth, but also support cardiovascular and metabolic health."^{*}

Along with MagneCal D, several other **USANA[®]** supplements have been recently certified by ConsumerLab.com, including **Vitamin D, CoQuinone[®] 30, BiOmega[™], Procosa[®], Visionex[®], Pure Rest[™], USANA[®] Probiotic, and Body Rox[™]**.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
