

Company Overview

Viveve, Inc., the wholly owned subsidiary of Viveve Medical, Inc., is a women's intimate health company based in Englewood, Colorado. Viveve is committed to advancing new solutions to improve women's overall well-being and quality of life. The company is focused on the commercialization of a revolutionary, non-surgical, non-ablative medical device that remodels collagen and restores vaginal tissue. The internationally patented Viveve® System incorporates Cryogen-cooled Monopolar Radiofrequency (CMRF) technology to uniformly deliver volumetric heating while gently cooling surface tissue to generate neocollagenesis in a single in-office session. In the United States, the Viveve System is cleared by the Food and Drug Administration (FDA) for use in general surgical procedures for electrocoagulation and hemostasis. International regulatory approvals and clearances have been received for vaginal laxity and/or improvement in sexual function indications in more than 50 countries.

Viveve continues to advance its clinical development program in SUI. The positive topline results reported August 25, 2020 from the 3-arm feasibility study and the preclinical study outcomes are intended to support the initiation of the pivotal PURSUIT Trial and strengthen its potential to achieve its primary efficacy endpoint. As announced on July 7, 2020, Viveve received FDA approval of its Investigational Device Exemption application to conduct the multicenter, randomized, double-blinded, sham-controlled PURSUIT Trial for improvement of SUI in women.

Viveve Announces FDA 510K Approval to Expand Manufacturing of Treatment Tips
