- Net sales were \$78.4 million compared to \$80.8 million.
- Gross margin increased 50 basis points to 29.9%.
- Net income was \$0.7 million, or \$0.02 per diluted share, compared to \$0.8 million or \$0.02 per diluted share.
- Adjusted EBITDA (a non-GAAP measure defined below) was \$4.1 million compared to \$4.0 million.
- Ended the quarter with no revolver debt.

First Quarter 2018 Operational Highlights vs. Year-Ago Quarter

- Conversion rate increased 50 basis points to 2.3%.
- Customer acquisition cost reduced to \$7.31.
- Revenue capture increased 300 basis points to 88.2%.

Management Commentary

"As discussed on our last quarterly call, 2018 got off to a slow start, however we launched several web development initiatives in March that quickly drove meaningful improvements to our results," said Aaron Coleman, CEO of U.S. Auto Parts. "These initiatives led to increases in both gross margin and adjusted EBITDA for the quarter, as well as our fourth consecutive quarter of conversion rate improvement.

"We are in the process of deploying similar initiatives across our other core e-commerce sites, and early results have been promising. In addition, we are continuing to expand our current marketplace partnerships and have made real progress on this front over the last month, with Amazon soon carrying some of our private label assortment under a direct fulfillment model. We are also working to create new relationships with marketplace partners, as we embrace the continued strong growth we've experienced in this sales channel. In fact, Q1 was our ninth consecutive quarter of double-digit marketplace sales growth."

First Quarter 2018 Financial Results

Net sales in the first quarter of 2018 were \$78.4 million compared to \$80.8 million in the year-ago quarter. The decrease was largely driven by a 13% decrease in e-commerce sales, partially offset by an 11% increase in online marketplace sales.

Gross profit in the first quarter of 2018 was \$23.5 million compared to \$23.8 million in the year-ago quarter. As a percentage of net sales, gross profit increased 50 basis points to 29.9% compared to 29.4% as a result of a favorable mix shift towards private label products, as well as optimized pricing strategies. The company continues to expect gross margin to range between 29-30% going forward.

Total operating expenses in the first quarter were reduced to \$21.9 million compared to \$22.6 million in the first quarter of last year. As a percentage of net sales, operating expenses remained constant at 27.9% compared to the year ago quarter.

Net income in the first quarter decreased to \$0.7 million, or \$0.02 per diluted share, compared to \$0.8 million or \$0.02 per diluted share in the year-ago period.

Adjusted EBITDA in the first quarter of 2018 increased to \$4.1 million compared to \$4.0 million in the year-ago quarter, driven by the aforementioned increase in online marketplace sales and prudent cost management, partially offset by higher compliance costs related to the company's accelerated filer status and litigation costs.

At March 31, 2018, cash and cash equivalents totaled \$9.2 million compared to \$2.9 million at December 30, 2017. The increase was driven by improvements in working capital, free cash generation, as well as temporary favorable payment terms with one of its shipping vendors. The company also continued to carry no revolver debt at March 31, 2018.

2. Revenue capture is the amount of actual dollars retained after taking into consideration returns, credit card declines and product fulfillment and excludes online marketplaces and media properties (e.g. AutoMD).

Update on the Customs Issues

U.S. Auto Parts recently filed a lawsuit against the United States Department of Homeland Security in the U.S. Court of International Trade. The lawsuit asserts that the United States Customs and Border Protection, an agency of the Department of Homeland Security ("Customs"), has been wrongfully seizing automotive grilles being imported by U.S. Auto Parts on the basis that the grilles are allegedly counterfeit and infringe trademarks held by the original automobile manufacturers. U.S. Auto Parts intends to vigorously defend its right to sell aftermarket automotive grilles under well-established trademark doctrines as the grilles are neither counterfeit nor is there a likelihood of confusion between our aftermarket products and OEM parts. While the number of seized automotive grilles currently represents less than one percent of U.S. Auto Parts' overall revenue and product assortment, U.S. Auto Parts has taken this action to remove overly burdensome bonding requirements arising from the wrongful seizures and to ensure that Customs expeditiously processes the flow of its goods into the United States. U.S. Auto Parts has already won a temporary restraining order reducing the bonding requirement to three percent of the commercial invoice value of each shipment and currently has a preliminary injunction hearing on the matter scheduled for May 9th. U.S. Auto Parts expects to issue a Form 8-K following the court's decision on the preliminary injunction hearing.

2018 Outlook

U.S. Auto Parts continues to expect net sales to increase low single digits on a percentage basis compared to 2017. In light of the anticipated costs associated with the customs issues, the company has revised its adjusted EBITDA range from between \$14.5 million and \$16.0 million to between \$13.0 and \$14.5 million compared to \$14.2 million in 2017. U.S. Auto Parts is not including a reconciliation of adjusted EBITDA guidance to projected net income due to the high variability and difficulty in making accurate long-term forecasts and projections of net operating loss carryforwards which have a significant impact on future net income results. As a result, U.S. Auto Parts is unable to quantify its projected net income without unreasonable efforts.

Non-GAAP Financial Measures

Regulation G, and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; and (e) share-based compensation expense.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as one measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of stock compensation expense, as well as items that are not expected to be recurring. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; and for evaluating the effectiveness of operational strategies. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the ongoing operations of companies in our industry.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

Safe Harbor Statement

This press release contains statements which are based on management's current expectations, estimates and projections about the Company's business and its industry, as well as certain assumptions made by the Company. These statements are forward looking statements for the purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended and Section 27A of the Securities Act of 1933, as amended. Words such as "anticipates," "could," "expects," "intends," "plans," "potential," "believes," "predicts," "projects," "seeks," "estimates," "may," "will," "would," "will likely continue" and variations of these words or similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to, the Company's expectations regarding its future operating results and financial condition, impact of changes in our key operating metrics, our potential growth and our liquidity requirements, and the Company's expectations regarding the customs litigation and related trademark issues. We undertake no obligation to revise or update publicly any forward-looking statements for any reason. These statements are not guarantees of future performance and are subject to certain

risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors.

Important factors that may cause such a difference include, but are not limited to, competitive pressures, our dependence on search engines to attract customers, demand for the Company's products, the online market and channel mix for aftermarket auto parts, the economy in general, increases in commodity and component pricing that would increase the Company's product costs, the operating restrictions in our credit agreement, the weather, the impact of the customs issues and any other factors discussed in the Company's filings with the Securities and Exchange Commission (the "SEC"), including the Risk Factors contained in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are available at www.usautoparts.net and the SEC's website at www.sec.gov. You are urged to consider these factors carefully in evaluating the forward-looking statements in this release and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. Unless otherwise required by law, the Company expressly disclaims any obligation to update publicly any forward-looking statements, whether as result of new information, future events or otherwise.
