Ondas Holdings to Present at the Oppenheimer 25th Annual Technology, Internet & Communications Conference on August 9, 2022

WALTHAM, MA / ACCESSWIRE / July 27, 2022 /[Ondas Holdings Inc.](#) (Nasdaq:ONDS) ("Ondas" or the "Company"), a leading provider of private wireless data, drone and automated data solutions through its wholly-owned subsidiaries, Ondas Networks Inc. and [American Robotics, Inc.](#), will be attending the Oppenheimer 25th Annual Technology, Internet & Communications Conference being held virtually August 9-10, 2022.

Ondas is scheduled to present on Tuesday, August 9, 2022, at 2:55 p.m. Eastern time, with one-on-one meetings held throughout the day.

To receive additional information or to schedule a one-on-one meeting at these conferences, please contact your Oppenheimer representative or Ondas' investor relations team at ONDS@gatewayir.com.

About Ondas Holdings Inc.

Ondas Holdings Inc. ("Ondas") is a leading provider of private wireless data and drone solutions through its wholly owned subsidiaries Ondas Networks Inc. ("Ondas Networks") and American Robotics, Inc. ("American Robotics" or "AR"). Ondas Networks is a developer of proprietary, software-based wireless broadband technology for large established and emerging industrial markets. Ondas Networks' standards-based (802.16s), multi-patented, software-defined radio FullMAX platform enables Mission-Critical IoT (MC-IoT) applications by overcoming the bandwidth limitations of today's legacy private licensed wireless networks. Ondas Networks' customer end markets include railroads, utilities, oil and gas, transportation, aviation (including drone operators) and government entities whose demands span a wide range of mission critical applications. American Robotics designs, develops, and markets industrial drone solutions for rugged, real-world environments. AR's Scout System™ is a highly automated, AI-powered drone system capable of continuous, remote operation and is marketed as a "drone-in-a-box" turnkey data solution service under a Robot-as-a-Service (RAAS) business model. The Scout System™ is the first drone system approved by the FAA for automated operation beyond-visual-line-of-sight (BVLOS) without a human operator on-site. Ondas Networks and American Robotics together provide users in rail, agriculture, utilities and critical infrastructure markets with improved connectivity and data collection capabilities.

Forward-Looking Statements

The Company's presentation at the conference may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution readers that forward-looking statements are predictions based on our current expectations about future events. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Our actual results, performance, or achievements could differ materially from those expressed or implied by the forward-looking statements as a result of a number of factors, including the risks discussed under the heading "Risk Factors" discussed under the caption "Item 1A. Risk Factors" in Part I of our most recent Annual Report on Form 10-K or any updates discussed under the caption "Item 1A. Risk Factors" in Part II of our Quarterly Reports on Form 10-Q and in our other filings with the SEC. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise that occur after that date, except as required by law.
