Sonoma Pharmaceuticals and Medline Industries Launch New HOCl Wound Cleanser for U.S. Hospitals

BOULDER, CO, AL / [ACCESS Newswire] / October 14, 2025 / Sonoma Pharmaceuticals, Inc. (Nasdaq:SNOA), a global healthcare leader in developing and producing stabilized hypochlorous acid (HOCl) products based on its patented Microcyn® technology, today announced the launch of a new HOCl wound cleanser manufactured by Sonoma for Medline Industries, LP. The product will be distributed by Medline into hospital systems, home healthcare and other healthcare channels across the United States.

The collaboration between Sonoma and Medline, initiated in 2024, combines Sonoma's expertise in developing safe and effective HOCl-based solutions with Medline's extensive hospital and healthcare distribution network. The new product provides clinicians with an advanced wound cleansing solution designed to promote healing and reduce infection risk without damaging healthy tissue.

"We are very excited for the launch of the new HOCl wound cleanser into hospitals in the United States, which marks a significant milestone in the growth of our U.S. business," said Amy Trombly, CEO of Sonoma Pharmaceuticals. "The substantial efforts by both Sonoma and Medline to make this possible reflect the value to patients and doctors in bringing our wound care technology to major hospital systems. We are proud to be contributing to improved patient care across the country."

About Sonoma Pharmaceuticals, Inc.

Sonoma Pharmaceuticals is a global healthcare leader for developing and producing stabilized hypochlorous acid (HOCl) products for a wide range of applications, including wound, eye, oral and nasal care, dermatological conditions, podiatry, animal health care and non-toxic disinfectants.
