# WRAP Awarded ISO 9001:2015 Certification Marking Compliance with International Quality Standards

TEMPE, Ariz., April 22, 2021 (GLOBE NEWSWIRE) -- **Wrap Technologies, Inc. (the "Company" or "WRAP") (Nasdaq: WRAP)**, a global leader in innovative public safety technologies and services, announced today that it has earned ISO 9001:2015 certification for its Quality Management System. The internationally recognized standard, developed and published by the International Organization for Standardization (ISO), is based on several quality management principles, including a strong customer focus, the motivation and implication of top management, the process approach, and continual improvement. The scope of WRAP's certification includes design, manufacturing, assembly, training, sales and service.

"Achieving ISO 9001:2015 certification demonstrates WRAP's commitment to meeting the highest international standards of excellence," said Tom Smith, President and CEO at WRAP. "Many customers, especially international customers, require approved suppliers to have an ISO certification, which reflects a higher quality of products and services. Obtaining this standard is aligned with our strategic focus on international growth and is a meaningful and necessary accomplishment by the WRAP team."

ISO 9001:2015 audits are performed by a qualified independent certifying body. WRAP's audit, performed in March and April 2021, were conducted by the ANAB Accredited certification services of the PRI Registrar.

### **Cautionary Note on Forward-Looking Statements - Safe Harbor Statement**

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to: statements regarding the Company's overall business; total addressable market; and, expectations regarding future sales and expenses. Words such as "expect", "anticipate", "should", "believe", "target", "project", "goals", "estimate", "potential", "predict", "may", "will", "could", "intend", and variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Moreover, forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond the Company's control. The Company's actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: the Company's ability to successfully implement training programs for the use of its products; the Company's ability to manufacture and produce product for its customers; the Company's ability to develop sales for its new product solution; the acceptance of existing and future products; the availability of funding to continue to finance operations; the complexity, expense and time associated with sales to law enforcement and government entities; the lengthy evaluation and sales cycle for the Company's product solution; product defects; litigation risks from alleged product-related injuries; risks of government regulations; the business impact of health crises or outbreaks of disease, such as epidemics or pandemics; the ability to obtain export licenses for countries outside of the US; the ability to obtain patents and defend IP against competitors; the impact of competitive products and solutions; and the Company's ability to maintain and enhance its brand, as well as other risk factors mentioned in the Company's most recent annual report on Form 10-K, quarterly report on Form 10-Q, and other SEC filings. These forward-looking statements are made as of the date of this press release and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Except as required by law, the Company undertakes no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events or changes in its expectations.
