WRAP Receives First Order Through the Arizona Municipal Risk Retention Pool Funding Program

TEMPE, Ariz., Jan. 10, 2022 (GLOBE NEWSWIRE) -- **Wrap Technologies, Inc. (Nasdaq: WRAP)** (the "Company"), a global leader in innovative public safety technologies and services, today announced the first order for its BolaWrap 150® Remote Restraint devices through the Arizona Municipal Risk Retention Pool (AMRRP) funding program announced on December 16, 2021.

The order was placed following the announcement that the AMRRP Board of Trustees voted unanimously to approve funding to assist its member police agencies statewide in procuring BolaWrap devices for active-duty police officers. The AMRRP represents over 60 rural agencies with more than 1,800 police officers. AMRRP will fund 50% of the purchase price of the BolaWrap and the associated accessories, to help equip police officers that work for its member agencies.

The agency order is for full deployment to all active-duty officers including devices, cassettes, and holsters. The Company expects to ship the order in the first quarter of 2022.

"I'm excited to see the rapid response from these agencies to the AMRRP funding program," said Tom Smith, President and CEO of WRAP. "The need for early intervention tools and alternatives to higher levels of force is prevalent. We believe the agencies recognize the potential savings that the early use of the BolaWrap can have on reducing excessive force claims, as seen by the first order being for a full deployment."

The Company has received five additional requests for quotes from AMRRP member agencies.

About AMRRP

The Arizona Municipal Risk Retention Pool (AMRRP) is a Municipally Governed Risk Pool dedicated solely to Coverage and Risk Management Solutions for Arizona cities and towns. AMRRP headquarters are in Scottsdale, Arizona. To learn more about the AMRRP, please visit: <https://www.amrrp.org/>.

About WRAP

WRAP Technologies (Nasdaq: WRAP) is a global leader in innovative public safety technologies and services. WRAP develops creative solutions to complex issues and empowers public safety officials to protect and serve their communities through its portfolio of advanced technology and training solutions.

WRAP's BolaWrap® Remote Restraint device is a patented, hand-held pre-escalation and

apprehension tool that discharges a Kevlar® tether to temporarily restrain uncooperative suspects and persons in crisis from a distance. Through its many field uses and growing adoption by agencies across the globe, BolaWrap is proving to be an effective tool to help law enforcement safely detain persons without injury or the need to use higher levels of force.

Wrap Reality, the Company's virtual reality training system, is a fully immersive training simulator and comprehensive public safety training platform providing first responders with the discipline and practice in methods of de-escalation, conflict resolution, and use-of-force to better perform in the field.

WRAP's headquarters are in Tempe, Arizona. For more information, please visit wrap.com.
