WRAP Releases New Body Cam Video Deployment of BolaWrap in Pembroke Pines, Florida

TEMPE, Ariz., Jan. 20, 2022 (GLOBE NEWSWIRE) -- **Wrap Technologies, Inc. (Nasdaq: WRAP)** (the "Company"), a global leader in innovative public safety technologies and services, today shared new agency body cam footage provided by the Pembroke Pines Police Department demonstrating a successful outcome from the deployment of the BolaWrap® Remote Restraint device.

On November 3, 2021, officers of the Pembroke Pines Police Department in Florida responded to a subject walking in the center lane of a busy highway road. The subject was unresponsive to multiple officer commands and continued walking through traffic. Officers on-scene were able to coordinate a deployment of the BolaWrap to the subject's lower legs, resulting in an immediate response from the subject. The subject was safely halted, thereby allowing officers to take the subject into custody without injury.

"One by one, these successful body cam videos serve as case studies to the effectiveness and safety of our BolaWrap devices for police officers and subjects at risk," commented WRAP CEO and President, Tom Smith. "We expect to see more adoption as we continue to educate and demonstrate how it is the most valuable and proven tool in the market to assist law enforcement agencies across the globe."

The body cam footage can be viewed [here](#). Body cam footage of other BolaWrap deployments can be viewed [here](#).

About WRAP

WRAP Technologies (Nasdaq: WRAP) is a global leader in innovative public safety technologies and services. WRAP develops creative solutions to complex issues and empowers public safety officials to protect and serve their communities through its portfolio of advanced technology and training solutions.

WRAP's BolaWrap® Remote Restraint device is a patented, hand-held pre-escalation and apprehension tool that discharges a Kevlar® tether to temporarily restrain uncooperative suspects and persons in crisis from a distance. Through its many field uses and growing adoption by agencies across the globe, BolaWrap is proving to be an effective tool to help law enforcement safely detain persons without injury or the need to use higher levels of force.

Wrap Reality, the Company's virtual reality training system, is a fully immersive training simulator and comprehensive public safety training platform providing first responders with the discipline and practice in methods of de-escalation, conflict resolution, and use-of-force to better perform in the field.

WRAP's headquarters are in Tempe, Arizona. For more information, please visit wrap.com.
