## Use of Non-GAAP Financial Measures and Key Performance Indicators

This press release includes certain financial measures that are not presented in accordance with the generally accepted accounting principles in the United States ("GAAP"), including Adjusted EBITDA and free cash flow before growth capital expenditures. These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should be considered in addition to, and not as a substitute for or superior to, net loss as a measure of financial performance or any other performance measure derived in accordance with GAAP and should not be construed as an inference that the Company's

future results will be unaffected by unusual or non-recurring items. In addition, these non-GAAP financial measures should be read in conjunction with the Company's financial statements prepared in accordance with GAAP. The reconciliations of the Company's non-GAAP financial measures to the corresponding GAAP measures should be carefully evaluated.

Adjusted EBITDA is defined as net income (loss) before interest expense, net, provision for (benefit from) income taxes and depreciation and amortization, excluding the impact of share-based compensation expense, (gain) loss on sale-leaseback transactions, capital transaction costs, legal settlements, asset impairment, severance and other items that are not indicative of the Company's ongoing operations, including incremental costs related to COVID-19. Free cash flow before growth capital expenditures is defined as net cash provided by (used in) operating activities less center maintenance capital expenditures and corporate capital expenditures.

The Company presents these non-GAAP financial measures because management believes that these measures assist investors and analysts in comparing the Company's operating performance across reporting periods on a consistent basis by excluding items that management does not believe are indicative of the Company's ongoing operating performance. Investors are encouraged to evaluate these adjustments and the reasons the Company considers them appropriate for supplemental analysis. In evaluating the non-GAAP financial measures, investors should be aware that, in the future, the Company may incur expenses that are the same as or similar to some of the adjustments in the Company's presentation of its non-GAAP financial measures. There can be no assurance that the Company will not modify the presentation of non-GAAP financial measures in future periods, and any such modification may be material. In addition, the Company's non-GAAP financial measures may not be comparable to similarly titled measures used by other companies in the Company's industry or across different industries.

The non-GAAP financial measures have limitations as analytical tools, and investors should not consider these measures in isolation or as substitutes for analysis of the Company's results as reported under GAAP.

The Company includes a center, for comparable center sales purposes, beginning on the first day of the 13<sup>th</sup> full calendar month of the center's operation, in order to assess the center's growth rate after one year of operation.

- (1) We define Average Center revenue per center membership as Center revenue less Digital On-hold revenue, divided by the average number of Center memberships for the period, where the average number of Center memberships for the period is an average derived from dividing the sum of the total Center memberships outstanding at the beginning of the period and at the end of each month during the period by one plus the number of months in each period.
- (2) We measure the results of our centers based on how long each center has been open as of the most recent measurement period. We include a center, for comparable center sales purposes, beginning on the first day of the 13th full calendar month of the center's operation, in order to assess the center's growth rate after one year of operation.
- (3) Net new center openings are the number of centers that opened for the first time to members during the period, less any centers that closed during the period. Total centers (end of period) is the number of centers operational as of the last day of the period. As of March 31, 2022, all of our 153 centers were open.
- (4) Total center square footage (end of period) reflects the aggregate fitness square footage, which we use as a metric for evaluating the efficiencies of a center as of the end of the period. The square footage figures exclude areas used for tennis courts, outdoor swimming pools, outdoor play areas and stand-alone Work, Sport and Swim locations. These figures are approximations.
- (5) Net loss margin is calculated as net loss divided by total revenue.
- (6) We present Adjusted EBITDA as a supplemental measure of our performance. We define Adjusted EBITDA as net income (loss) before interest expense, net, provision for (benefit from) income taxes and depreciation and amortization, excluding the impact of share-based compensation expense, (gain) loss on sale-leaseback transactions, capital transaction costs, legal settlements, asset impairment, severance and other items that are not indicative of our ongoing operations, including incremental costs related to COVID-19.

Adjusted EBITDA margin is calculated as Adjusted EBITDA divided by total revenue.

The following table provides a reconciliation of net loss, the most directly comparable GAAP measure, to Adjusted EBITDA:

	Three Months Ended March 31,				
		2022	2021		
		(\$ in tho	usands)		
Net loss	\$	(37,966)	\$ (152,801)		
Interest expense, net of interest income <sup>(a)</sup>		29,943	96,217		
Benefit from income taxes		(2,867)	(25,953)		
Depreciation and amortization		58,107	61,206		
Share-based compensation expense <sup>(b)</sup>		21,438	—		
COVID-19 related expenses (c)		212	298		
(Gain) loss on sale-leaseback transactions (d	)	(28,372)	798		
Other <sup>(e)</sup>		131	1,288		
Adjusted EBITDA	\$	40,626	\$ (18,947)		

- (a) For the three months ended March 31, 2021, we incurred a non-cash expense of \$41.0 million related to the extinguishment of a related party secured loan and \$18.3 million related to the write-off of debt discounts and issuances costs in connection with the extinguishment of senior secured notes and the related party secured loan.
- (b) Share-based compensation expense recognized during the three months ended March 31, 2022 is associated with stock options, restricted stock and restricted stock units. The majority of this expense was associated with awards which were fully vested and exercisable as of April 4, 2022. No share-based compensation expense was recognized during the three months ended March 31, 2021, because the vesting and exercisability of stock options granted by the Company up through March 31, 2021 was contingent upon the occurrence of a change of control or an initial public offering.
- (c) Represents the incremental net expenses we recognized related to the COVID-19 pandemic. We adjust for these costs as they do not represent costs associated with our normal ongoing operations. We believe that adjusting for these costs provides a more accurate and consistent representation of our actual operating performance from period to period. For the three months ended March 31, 2022 and 2021, COVID-19 related expenses primarily consisted of legal related costs.
- (d) We adjust for the impact of gains or losses on the sale-leaseback of our properties as they do not reflect costs associated with our ongoing operations.
- (e) Includes costs associated with incremental expenses related to a winter storm resulting in historical freezing temperatures affecting our Texas region and other transactions which are unusual and non-recurring in nature.

- (7) Represents non-capital expenditures associated with opening new centers which are incurred prior to the commencement of a new center opening. The number of centers under construction or development, the types of centers and our costs associated with any particular center opening can vary significantly from period to period.
- (8) Reflects the non-cash portion of our annual GAAP operating lease expense that is greater or less than the cash operating lease payments. Non-cash rent expense for our open properties represents non-cash expense associated with properties that were operating at the end of each period presented. Non-cash rent expense for our properties under development represents non-cash expense associated with properties that are still under development at the end of each period presented.

(9) Free cash flow before growth capital expenditures, a non-GAAP financial measure, is calculated as net cash provided by (used in) operating activities less center maintenance capital expenditures and corporate capital expenditures. The following table provides a reconciliation from net cash provided by (used in) operating activities to free cash flow before growth capital expenditures:
