We achieved a 10.2% increase in same store NOI and a 21.7% per share increase in Core FFO. Operationally, we drove same store revenue and NOI growth of 7.7% and 10.2%, respectively, while on the external growth front we continue to identify and close high-quality self storage acquisitions in our core growth markets. During 2016, we acquired and made investments in properties totaling over \$1.3 billion in value, which included 107 consolidated properties and our entrance into a new joint venture with a portfolio of 66 properties."

Mr. Nordhagen, continued, "As importantly, during the fourth quarter we raised approximately \$105 million of common equity through a well-received follow-on offering, and approximately \$34 million under the company's ATM program, ending the year with a strong balance sheet and ample flexibility to support our growth objectives. Finally, we are extremely pleased to announce that we have entered into agreements to add our eighth Participating Regional Operator ("PRO"), Personal Mini Storage of Orlando, Florida. Marc Smith, President of Personal Mini, brings over twenty years of self storage industry experience, is a highly respected leader within the industry and served as the Chairman of the National Self Storage Association in 2016. The mark of adding our eighth PRO combined with our recently completed iStorage joint venture enhances NSA's competitive advantage in the public self storage space. As we move forward into 2017, we look to further expand our platform, drive strong core FFO growth and create value for our shareholders over the long-term."

(1) Amounts represent distributions declared for subordinated performance unitholders and DownREIT subordinated performance unitholders for the periods presented.

(2) NSA combines OP units and DownREIT OP units with common shares because, after the applicable lock-out periods, OP units in the Company's operating partnership are redeemable for cash or, at NSA's option, exchangeable for common shares on a one-for-one basis and DownREIT OP units are also redeemable for cash or, at NSA's option, exchangeable for OP units in our operating partnership on a one-for-one basis, subject to certain adjustments in each case. Subordinated performance units, DownREIT subordinated performance units, and LTIP units may also, under certain circumstances, be convertible into or exchangeable for common shares (or other units that are convertible into or exchangeable for common shares). See footnote ⁽⁴⁾ for additional discussion of subordinated performance units, DownREIT subordinated performance units, and LTIP units in the calculation of FFO and Core FFO per share and unit.

(3) LTIP units have been excluded from the calculations of weighted average shares and units outstanding prior to April 28, 2015 because such units did not participate in distributions prior to the Company's initial public offering.

Reconciliation of Earnings (Loss) Per Share - Diluted to FFO and Core FFO Per Share and Unit

Add real estate depreciation and amortization	0.24	0.21	0.93	1.03
Add Company's share of unconsolidated venture real estate depreciation and amortization	0.02	—	0.03	—
FFO attributable to subordinated performance unitholders	(0.10)	(0.09)	(0.39)	(0.38)
FFO per share and unit	0.26	0.23	0.99	0.77
Add acquisition costs, Company's share of unconsolidated real estate venture acquisition costs, organizational and offering expenses, and loss on early extinguishment of debt	0.04	0.01	0.13	0.15
Core FFO per share and unit	\$ 0.30	\$ 0.24	\$1.12	\$0.92

(4) Adjustment accounts for the difference between the weighted average number of shares used to calculate diluted earnings per share and the weighted average number of shares used to calculate FFO and Core FFO per share and unit. Diluted earnings per share is calculated using the two-class method for the company's restricted common shares, the treasury stock method for certain unvested LTIP units, and includes the assumption of a hypothetical conversion of subordinated performance units, DownREIT subordinated performance units and LTIP units into OP units, even though such units may only be convertible into OP units (i) after a lock-out period and (ii) upon certain events or conditions. For additional information about the conversion of subordinated performance units and DownREIT subordinated performance units into OP units, see Note 8 in Item 1 to the Company's most recent Quarterly Report on Form 10-Q or, if more recent, Note 10 to the Company's most recent Annual Report on Form 10-K, filed with the Securities and Exchange Commission. The computation of weighted average shares and units for FFO and Core FFO per share and unit includes all restricted common shares and LTIP units that participate in distributions and excludes all subordinated performance units and DownREIT subordinated performance units because their effect has been accounted for through the allocation of FFO to the related unitholders based on distributions declared.

(5) Represents the effect of adjusting the numerator to consolidated net income (loss) prior to GAAP allocations for noncontrolling interests and the application of the two-class method and treasury stock method, as described in footnote ⁽⁴⁾.
