Main Street Announces Tax Treatment of 2013 Dividends

Favorable Tax Rates Apply to 30% of 2013 Dividends

HOUSTON, Jan. 15, 2014 /PRNewswire/ -- Main Street Capital Corporation (NYSE: MAIN) ("Main Street") announced today that it has posted information regarding the U.S. federal income tax characteristics of its dividends that are attributable to 2013 (the "2013 Dividend Summary") on its website (http://ir.mainstcapital.com/dividend_reinvestment.cfm). Main Street paid dividends totaling \$2.675 per share that are attributable to 2013, with approximately 13% of such distributions representing long-term capital gains, approximately 17% representing qualified ordinary income dividends and approximately 70% representing non-qualified ordinary income dividends. Long-term capital gains and qualified ordinary income dividends qualify for favorable tax treatment under the Internal Revenue Code and, for 2013, will generally be subject to a maximum 20% U.S. federal income tax rate (plus a 3.8% Medicare surtax, if applicable). The tax characteristics shown in the 2013 Dividend Summary represent the final accounting of Main Street's 2013 distributions and supersede any earlier estimated information. In addition to the dividends paid by Main Street that are attributable to 2013, Main Street estimates that it continued to have significant spillover taxable income (taxable income in excess of dividends paid) at December 31, 2013 that will benefit stockholders in future periods.
