Jushi Debuts Cannabis-Infused Chocolates by Tasteology

Chocolate Bar Recipe Handcrafted by 'Top Chef: Just Desserts' Finalist Matt Petersen, Using Valrhona's Gourmet Chocolate and Delivered in Sustainable Tarot Card-Themed Packaging

BOCA RATON, Fla, Sept. 07, 2022 (GLOBE NEWSWIRE) -- [Jushi Holdings Inc.](#) ("**Jushi**" or the "**Company**") ([CSE: JUSH](#)) ([OTCQX: JUSHF](#)), a vertically integrated, multi-state cannabis operator, announced the launch of cannabis-infused chocolates by [Tasteology](#) in Massachusetts. The debut of the Company's latest product line, which has been handcrafted by Jushi's Director of Manufacturing and [Bravo's Top Chef: Just Desserts](#) finalist, Matt Petersen, in concert with Jushi's product development team, marks the Company's entrance into the cannabis-infused chocolates market.

"Made using just a handful of ingredients you can easily pronounce in our state-of-the-art kitchen by an award-winning chef, Tasteology Chocolates represent the culmination of extensive consumer research into taste and demonstrate our ongoing commitment to developing products that not only meet the diverse needs of consumers, but are also delicious," said [Chief Executive Officer, Chairman and Founder of Jushi Holdings Jim Cacioppo](#).

Artfully crafted from 100% gourmet chocolate made with [responsibly sourced cocoa beans](#) from gourmet French chocolatier, [Valrhona](#), Tasteology Chocolates are currently available in three flavors: [Milk Chocolate](#), [Dark Chocolate](#) and [Strawberry Blonde Chocolate](#). These 18-piece bars, which are easily separable for accurate dosing, contain 90mg of THC per bar [5mg per piece].

The chocolates are also 100% [Fair Trade and USDA Organic Certified](#), using beans that have been sourced only from suppliers that embrace agroforestry and adhere to a strict [charter](#) that was designed to protect labor rights, biodiversity and food safety.

"Sourcing the best ingredients was simply a no-brainer for us," said Petersen. "So many edibles on the market today simply aren't appealing to the palate. With Tasteology Chocolates, we were determined to bring consumers products containing all-natural ingredients, no preservatives, and some of the best cocoa you can buy."

Tasteology Chocolates are currently available for purchase at Nature's Remedy dispensaries in [Tyngsborough](#) and [Millbury](#), Massachusetts, and will continue to roll out to partner dispensaries across the Commonwealth in the coming weeks. The new line is also expected to launch in Virginia in Q1 2023.

As cannabis markets mature, the demand for edibles has grown at an outpaced rate relative

to overall industry growth. According to cannabis point-of-sale software provider [Flowhub](#), in 2021, the edibles category made up 11% of overall sales, compared to 9% in 2020, representing \$2.75B. Coupled with results from Jushi's inaugural "[4/20 Cannabis Insights Poll](#)," which found that out of any product category, non-cannabis users would be most interested in trying edibles (32.7%), the demand for edibles remains strong and is likely to keep growing.
